Cardinal Shrub

CARDINAL SHRUB

(Weigela Vaniceki)

Blooms Spring and Autumn

Literally covered from top to bottom with hundreds of lovely rosy red flowers. Each blossom is trumpet-shaped, 1 to 1½ inches across, and they bloom from May to June. During the balance of the season there are scattered blossoms that show as glowing sparks against the deep green foliage. We suggest that you use sprays for bouquets since this lovely plant will flower more profusely as they are clipped.

A new shrub, it has fast become the most widely planted shrub in America. Its beauty alone could account for its popularity, but in addition it is extremely easy to grow, and thrives at every point of the compass—blooming in the spring, summer and fall. Lives happily in full sun or partial shade. The excellent foliage makes a shapely, graceful bush approximately 6 feet tall. One of the best hardy new shrubs, it has withstood 15 below zero cold without injury. If planted this spring it will definitely bloom this season. You'll like this lovely plant. It will compliment your taste and your home.

Strong, Vigorous Shrubs

	Each	2 for
2- 3 ft.	\$1.50	\$2.75
18-24 in.	1.25	2.35

Be a Connoisseur! Add These Unusual Shrubs

PEPPER BUSH (Summersweet)

(Clethra Alnifolia Rosea)

Finger-like clusters of small, deliciously scented pink flowers—vaguely spicy—reminiscent of pepper. A compact, neat plant of dozens of slender upright branches growing 4 to 5 feet tall. Here is the rare luscious pink form of the much loved white Pepper Bush, giving bloom when most needed to bestir the gloom, in late summer and early autumn. Leaves are shining deep green, 2-3 inches long, and resemble the Alder with their toothed sides. A truly fine, useful shrub, especially good for those low moist garden spots most nearly approximating a damp woodland condition. Will give you beauty in deep shade or the brightest sun. **2-3 ft., \$2.50 each; 2 for \$4.75. 18-24 in., \$2.00 each; 2 for \$3.75. Postpaid.**

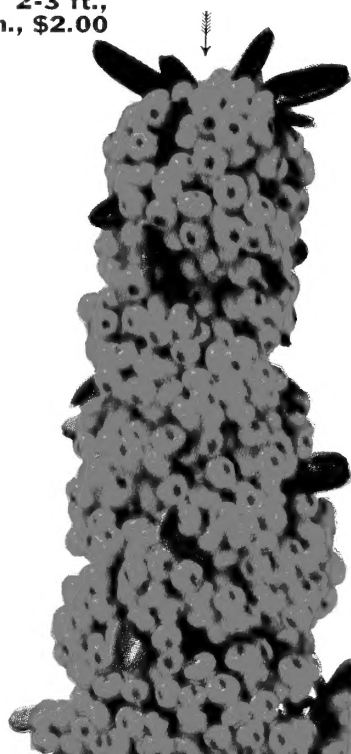

Firethorn, PYRACANTHA

Lovely Decorative Berries

(Coccinea Lalandi)

A most remarkable berried shrub that retains its foliage all winter. The attractive long trusses of pure white flowers are only a prelude to the big show. An abundance of brilliant orange-scarlet berries follow the bloom and the bush becomes a "mound of flame" with the effect lasting well into the winter. Blooms in May. Grows 4-6 feet. **2-yr., 12-15 in., \$2.25 each; 2 for \$4.35. Postpaid.**

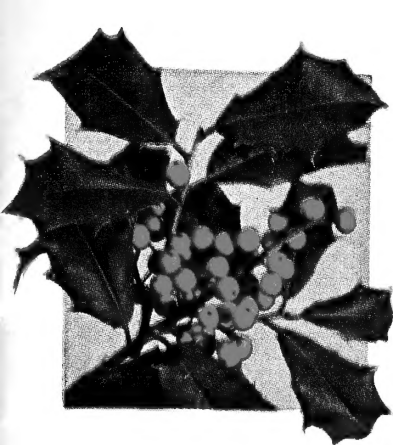

PINK CASCADE

(Patent No. 1275)

Resembles Large Morning Glory

It mirrors a Morning Glory to perfection with a few added beauty notes of its own. The picture can't do justice to the subtle beauty of this plant. The foliage is a delicate silvery blue, interlaced with the lovely pink blossoms that flow like a living cascade everywhere. A feathery type of the lacy Tamarix, it is one of the finest of the flowering shrubs. For best results with this beauty cut back to 6 inches at planting—you'll have true, full beauty all season. **2-yr. plants, \$2.00 each; 2 for \$3.75. Postpaid.**

Christmas Holly

ILEX OPACA

By far the most famous of the Holly family, the American Holly was once commonly found in most all wooded areas of the East.

Either by cutting, burning or from an attack of bugs and disease it has all but disappeared, except for certain areas along the Eastern seaboard.

By selection and breeding, Holly experts have succeeded in propagating varieties that are hardy and comparatively free from disease and insect attacks.

We now have a quantity of this most unusual plant, which we are offering. The plants we have, have been selected for their early and heavy fruiting characteristics. They have been found hardy for several years in the Buffalo, New York area and in New England.

The trees are likely to do better where they are protected from strong winter winds and where they get some shade. A fertile, well drained soil, on the acid side, is preferred. The use of leaf mold and peat moss in planting and as a mulch is recommended. A special Holly fertilizer is listed below.

Although the tree will grow 30 to 40 ft. tall at maturity, it looks best when kept trimmed to a compact size of 4 to 8 ft.

Evergreen in its nature, with the heavy crop of attractive bright red berries during the winter, as an accent plant in strategic corners, flanking walks or front entrances, it is in a class by itself. It is invaluable for planting in areas fairly close to the house.

Because the female and male flower are produced on separate plants, at least 2 plants must be planted. Because the pollen from 1 male plant will pollinate the blossoms of from 2 to 10 female plants, we offer a combination of 2 female and 1 male plant in one package.

Special Holly Culture Booklet sent Free with each order

All 3, 9-15 in., 3-yr. plants, only \$5.95, postpaid.

To Your Garden

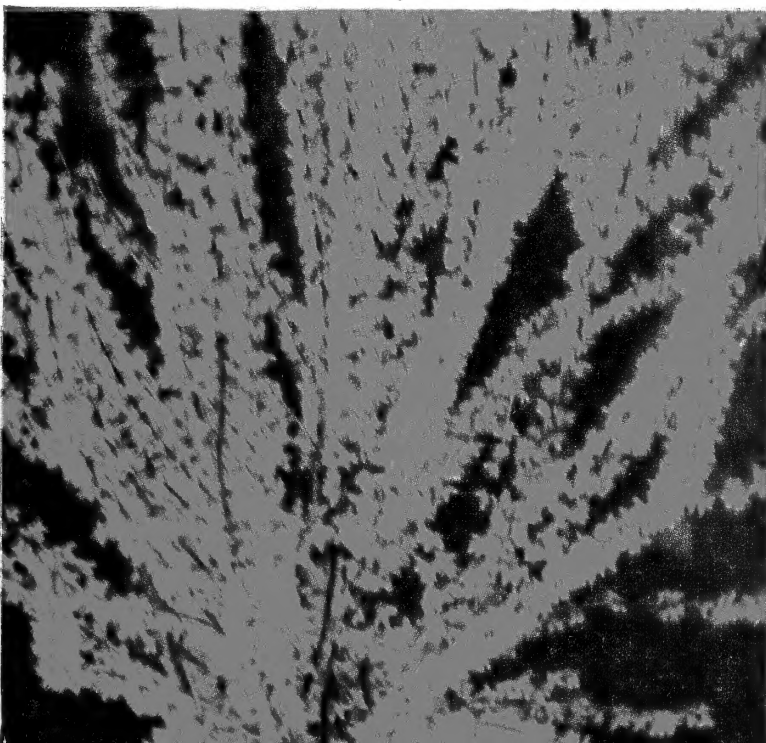

Christmas Holly - Ilex Opaca

FORSYTHIA, Lynwood Gold

This splendid new Forsythia originated in Ireland, and we predict it will replace, before many years, all other varieties of deep yellow color. The branches are erect and literally smothered under golden yellow flowers from top to bottom. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years, and we recommend it without hesitation. Ultimate height 5 to 7 feet, depending on conditions.

RA-PID-GRO

The MIRACLE Plant Food

1 pound of Ra-Pid-Gro added to 22 gals. of water gives you a complete, quickly available, easily prepared plant food. Analysis: 23% Nitrogen, 21% Phosphate, 17% Potash.

• WHAT IS RA-PID-GRO?

Ra-Pid-Gro is a complete concentrated plant food. It is made into an immediately available, effective liquid fertilizer by simply adding water. It speeds up growth of plants now in place, and assures more successful transplanting of new plants.

• HOW IS IT USED?

Just add water at the rate of 1 lb. of Ra-Pid-Gro to 22 gallons of water. It is ready to use as soon as the Ra-Pid-Gro dissolves. Apply around each plant according to directions on the package. For a small number of plants mix at the rate of 1 teaspoonful to a quart of water.

• WHAT WILL IT DO?

Ra-Pid-Gro works almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreen shrubs, Roses, perennials, vegetables and house plants. All the vital plant food elements are present in this remarkable discovery and, since it is applied in liquid form, are readily available to the roots of the plant.

PRICES

1 lb. Ra-Pid-Gro	(makes 22 gals.)	\$ 1.30
2 lbs. Ra-Pid-Gro	(makes 44 gals.)	2.50
5 lbs. Ra-Pid-Gro	(makes 110 gals.)	4.75
10 lbs. Ra-Pid-Gro	(makes 220 gals.)	9.00
25 lbs. Ra-Pid-Gro	(makes 550 gals.)	21.00

All Postpaid

WE PAY POSTAGE

Most plants listed in the catalog are delivered to your home postpaid.

Trees too large for parcel post shipment are sent by express—you pay the charges.

Where there is a mixed order of postpaid and express items, we ship the whole order express, prepaying in advance, our portion of the charges.

Our Guarantee

We positively GUARANTEE any nursery stock you buy from this catalog to grow. If any tree, bush or plant from our nursery does not grow, we will replace it ABSOLUTELY FREE the next growing season. All replacement orders we will bill you for the parcel post charges. All we ask is that you follow instructions mailed with your order acknowledgement and give the plants good care. Report on losses to reach us ON OR BEFORE AUGUST 1st. FOLLOWING PLANTING. Send original order to us when requesting a replacement.

We ship only STRONG, HEALTHY STOCK OF THE BEST QUALITY. That's why we can make such an iron-clad guarantee.

HOW TO ORDER

PLEASE READ BEFORE ORDERING YOUR SELECTIONS

1. Order now for shipment at planting time.
2. Unless you specify date, we will ship at the proper planting time in your section.
3. An envelope and order blank are enclosed for your convenience.
4. For ordering, please use order blanks enclosed. Letters should be written separately to avoid confusion and mistakes, and to insure prompt reply.
5. Our terms are cash with order. C.O.D. orders accepted only when 25 per cent deposit accompanies the order.

On C.O.D. orders the customer pays all transportation charges.

HOW TO REMIT

Send Money Order or Check with your order. You save money by sending remittance with order. The Post Office and Express Company make extra charges for C.O.D. shipments.

QUANTITY RATES

Take advantage of our lower rates for quantity purchases. For 1 to 6 trees remit at 6 rate; 7 to 12 trees of one sort, such as Apples, varieties alike or assorted, entitles you to the 12 rate; 13 to 25 trees, alike or assorted, entitles you to the 25 rate; 26 or more trees, alike or assorted, entitles you to the 50 rate. In larger quantities please ask for our Growers Price List.

FREE PLANTING GUIDE

With every order we will send FREE a book which, by word or picture, shows just how to plant a tree or shrub.

OUR REFERENCES

As to our responsibility and reliability, we refer you to the Genesee Valley Union Trust Co., Dansville, N. Y.; Groveland State Bank, Groveland, N. Y.; Security Trust Co., Dansville, N. Y.; to any person whose letter appears in this catalog, or to your State Experiment Station or College.

ABOUT OUR NURSERY

LET'S GET ACQUAINTED

We only wish it were possible for us to meet all of our hundreds of thousands of customers in person. This being impossible, we take this means of telling you briefly about our big nursery.

From a small beginning in 1880, we have grown to become one of the largest nurseries in the country, shipping millions of plants to all parts of the U.S.A. each year.

IDEAL LOCATION

Located here in the famous Genesee Valley of New York State, ideal soil and climatic conditions, make it possible for us to grow the finest nursery stock obtainable.

MODERN BUILDINGS

With our refrigerated cold storage plants, we are able to maintain in perfect condition the trees and plants, making it possible for us to ship from early October until early June.

METHOD OF SHIPMENT

Strawberry Plants, Perennials and Supplies are shipped separate from nursery stock. We will ship your order at the proper time for planting in your section. If, however, for some reason you wish to have your order shipped on a particular date, please, carefully note this information on your order blank.

NEW PACKING METHODS

With the advance of new packing methods, we are now using Polyethylene Coated Kraft paper, which easily retains moisture, but still allows the plants to breathe. Research and experience has shown us that this method insures safe arrival of nursery stock, and makes it possible to ship without moss or other heavy packing material.

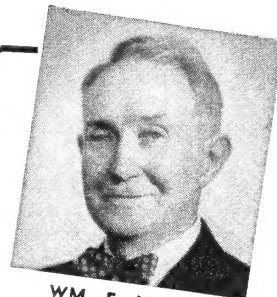

When your shipment arrives, if you can't plant it immediately, leave it in the bundle in a cool place just as it arrives, until you can plant.

OUR INTEREST CONTINUES

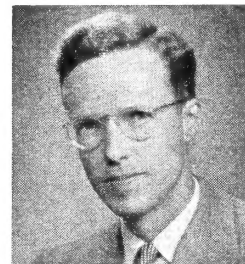

Our interest does not cease when you place your business with us. We take great pains to deliver nursery stock in A-1 condition, and know that if you will follow the planting instructions sent with each order, you will have excellent success with all of the trees and plants purchased from us.

YOUR VISITS ARE WELCOME

Those of our customers who are in driving distance of Dansville, we would like to meet personally. We are open during the spring season, starting the middle of March, on Saturdays and Sundays. Visitors are welcome at any time.

DEUTZIA, GRACILIS ROSEA

(Pink Deutzia)

Covered with a superabundance of delicate pink blossoms late in May, it is the most graceful and prettiest of the Deutzias. Does well in sun or light shade. Excellent for edging walks or in foreground of foundation plantings. Seldom grows over 2-3 feet high; attractive both winter and summer with its grace and beauty.

	Each	2 for
15-18 in.	\$1.50	\$2.75
12-15 in.	1.25	2.35

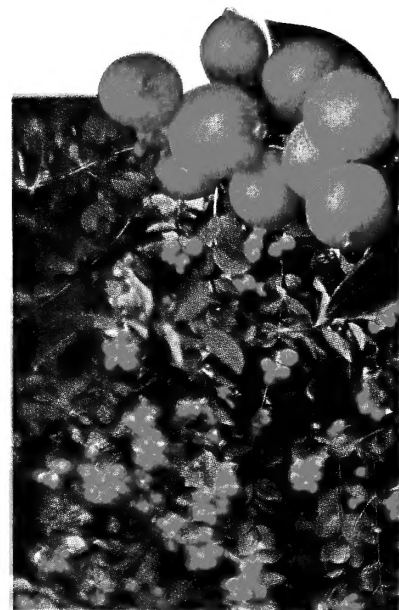

Postpaid

THE EXOTIC BLUE MIST SHRUB

(Caryopteris)

A true blue, shimmering, compact, rounded bush about 2 feet tall with exotic silvery green foliage. The perfect foil to complement your other plants without losing its own identity. From August to frost it is covered with many clusters of dainty blue flowers. Roots are hardy, allowing you to trim off the old canes each spring, making room for new shoots that give you one of the best low-growing, fall-blooming shrubs on the market. A shrub well calculated to win every flower connoisseur's admiration. \$1.25 each; 2 for \$2.25, postpaid.

Improved Chenaulti CORALBERRY

(Indian Currant)

Brilliant, colorful coral-red berries follow the delicate pink flowers of this 3 to 4 ft. shrub. Reddish green foliage complements the blossoms during the spring and show off the red berries that remain most of the winter. A "must" if you enjoy keeping birds near, as they really dote on the berries.

	Each	2 for
2- 3 ft.	\$1.25	\$2.25
18-24 in.	1.00	1.80

Kelly's DWARF SHRUBS

EVERGREEN BITTERSWEET - Lovely Decorative Orange-Red Berries

(Euonymus radicans vegetus)

Eureka! We've found it—the shrub for which you have looked so long and so far. Here is the wonderful berried vine that's so easy to use as a shrub or as a colorful hedge. Guaranteed to climb brick or wood with the same effortless ease. Makes an excellent shrub when pruned. Extremely hardy. Does well in northern exposure.

	Each	2 for
3-yr., large	\$1.75	\$3.00
2-yr., selected	1.25	2.35

Postpaid

Pink Flowering ALMOND

You can almost hear the rustle of a crinoline skirt when you see this old-time, long-time favorite. And it's smart to add the charm of an old-fashioned early spring flowering shrub to even your most sophisticated settings. Shades of southern belles, it's an eye stopper when covered completely with a mass of very double, vivid pink blossoms which appear in great clusters before the tiny satin-green leaves unfold.

	Each	2 for
2- 3 ft.	\$1.50	\$2.75

KELLY'S SHRUBS Are Shipped Direct From Our Big Nurseries At Dansville, N. Y.

BLUE HYDRANGEA

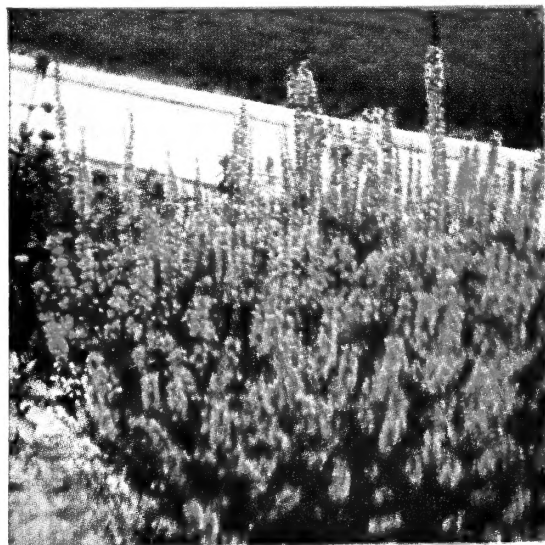

Cool, lovely blue blossoms throughout the entire summer. Large green leaves point up the blue of the blossom. The more acid the soil the deeper blue the color. Maintain soil acidity by mixing 4 to 5 tablespoons of aluminum sulphate to a gallon of water and apply to the soil for two to three weeks during the growing season. Mound earth up and around plant for winter protection. Grows in partial or full shade.

Each 2 for
3-yr., large\$2.25 \$4.00

← LYTHRUM, ROBERT

Graceful, fairy looking spikes covered with some of the deepest pink flowerets you've had the pleasure to see. A symphony of color, a joy to see the 3- to 4-foot stalks covered completely from ground to tip in a deep mouth-watering pink. And it blooms all summer! Extremely hardy, they grow everywhere and anywhere. This particular strain was developed in Canada. Selected 2-yr. plants, 95c each; 2 for \$1.80, postpaid.

DWARF RED BARBERRY,

← Crimson Pygmy

New introduction from Holland. Grows 6 to 8 inches high, 15 to 24 inches across. Slow growing. Ideal for planting in front of shrub planting. Best color when grown in full sun. We deliver 2-yr. field-grown plants, 6-8 inches in diameter. \$1.50 each; 2 for \$2.75; 5 for \$6.25; 10 for \$10.00, postpaid.

CHARTREUSE SHRUB

(Ligustrum Vicari)

Adds That "Bit of Color" to Every Planting
Good as Individual Planting or a Colorful Hedge

Sophisticated, beautifully different. Bright yellow foliage makes it a fine specimen alone or as a color accent in the shrub border. Grows to a height of 4 to 6 feet, but can be trimmed to any desired height or shape. Makes a handsome, luxuriant hedge. We offer especially bushy and well defined plants.

Postpaid Each 2 for
15-18 in.\$1.25 \$2.25
12-15 in.1.00 1.75

RED SPIREA →

(Spirea Anthony Waterer)

Masses of carnival-bright crimson flower clusters are produced in July and don't be afraid to cut for colorful bouquets since pruning helps to continue the blossoming until frost. A choice, low growing shrub, distinctive in style and form. Nice for specimen planting or in groups. Ultimate height 18-24 inches.

Each 2 for
18-24 in.\$1.50 \$2.75

THE POPULAR ALL-AMERICA LARGE FLOWERING SNOWBALL

(Improved *Viburnum Plicatum Sterile*)

Snowballs in June! A lovely sight to see. Stately, erect grower, dressed in beautiful green foliage. There are few June-flowering shrubs that can match the rare beauty of these lovely pure white flowers arranged in perfectly round clusters, 3 to 4 inches across. A remarkably charming and handsome specimen, 6 to 8 feet high.

	Each	2 for
2-3 ft.	\$1.50	\$2.75

	Postpaid	

VARIEGATED WEIGELA

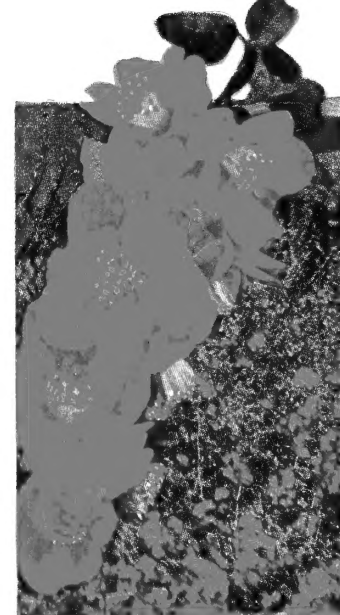

Lovely flowers are a pale pink, trumpet-shaped blossom. Foliage alone is worth the planting, sure to please in deep green edged with a lace trim of creamy white. Shrub blooms all through June and makes a handsome shrub of graceful spreading growth, attaining a height of 4 to 5 feet. **2-3 ft., \$1.50 each; 2 for \$2.75. 18-24 in., \$1.25 each; 2 for \$2.25, postpaid.**

ROSA HUGONIS - Father Hugo Rose

A Colorful Protective Shrub — Good for Hedging

China named this often-called Golden Rose after Father Hugo, who discovered it in China. The 4 to 5 ft. bushes are a mound of gold early in May with their bright yellow blossoms that bloom ahead of other Roses, thus making them more attractive. It is truly a lovely addition to the garden because of its admirable early flowers, its clean, fresh foliage and its charming arching habit. May be planted as a shrub border, hedge or as specimens. **18-24 in., \$1.50 each; 2 for \$2.75. 12-18 in., \$1.25 each; 2 for \$2.25, postpaid.**

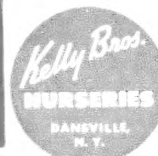

SCARLET QUINCE (The Fire Bush)

A first choice for rich, happy spring color for both indoor and outdoor beauty. Covered with masses of semi-double, brilliant scarlet flowers, even before the attractive shiny green leaves appear. Quince-shaped, fragrant fruit makes excellent jelly and marmalade and adds to the attractiveness of this 3 to 5 ft. "must" in landscaping. **2-3 ft., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.**

height -

These shrubs are ideal for planting on the corners, between windows and as a background shrub with those listed on pages 6 and 7.

WEIGELA, EVA RATHKE

Famous for its scarlet, trumpet-shaped blooms and for its hardiness. Growing 3 to 5 feet high, it blooms heavily in June and moderately during the rest of the season.

	Each	2 for
2- 3 ft.	\$1.25	\$2.25

GOLDFLAME HONEYSUCKLE

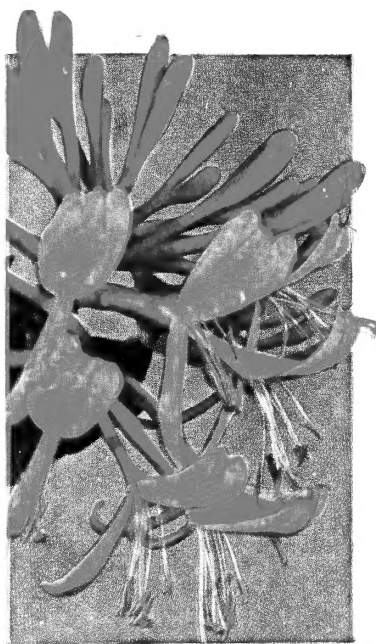

From June until freezing, this magnificent vine is covered with showy clusters of large, fragrant flowers, rosy flame outside and gold inside. The attractive foliage, a rich blue-green, makes a perfect background for the brilliant flowers. Hardy, thrives in full sun or partial shade. It can be used in so many places—trellis, porch, pergola, fence, fine for covering bank or can be trained as a shrub. **2-yr., large, \$1.25 each; 2 for \$2.25, postpaid.**

CALYCANTHUS Sweet-Scented Shrub

Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd looking pods develop which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 6 feet tall, and spreads over an area equally broad.

BURNING BUSH
(*Euonymus alatus compactus*)

A Different Color Each Season
A Blazing Copper Color in Fall

Yellow flowers in May-June, followed by red fruits. In autumn the leaves turn brilliant coppery crimson tinged rose. Has an unusual corky bark. Thrives in partial shade or full sun. Perfectly hardy, makes a compact bushy plant 4 to 5 feet wide. Not particular as to soil. Very ornamental and attracts attention, spring, summer, fall and winter.

18-24 in., \$2.25 each; 2 for \$4.00, postpaid.
12-18 in., \$1.75 each; 2 for \$3.00, postpaid.

GOLDEN SYRINGA
(*Philadelphus aureus*)

Always a "showy" shrub because of its all-season golden yellow foliage. Flowers are intensely white, with a fragrance which is delightful, more delicate, yet as penetrating in the garden as that of the Jasmine. Grows to a height of 4 to 5 ft., and is not fussy about location—doing well in smoky or dusty places.

15-18 in., \$2.25 ea.; 2 for \$4.25.
12-15 in., \$2.00 ea.; 2 for \$3.75.
Postpaid

SHRUBS - Medium in

COTONEASTER DIVARICATA

**The Berried Shrub That is
Particularly Adapted to Accent
Corner of a House Planting**

Is upright in growth, though the branches are spreading. The leaves are pointed, glossy green above, lighter below, turn red in autumn. The flowers are pink and appear in June. The fruit is oblong, ripening in August and September, and stays red for a long period. Grows 3-5 ft.

18-24 in., \$1.50 each; 2 for \$2.75.
12-18 in., \$1.25 each; 2 for \$2.35.
Postpaid

HYDRANGEA PEEGEE

A tall, stately shrub growing 4 feet in height. Branches bending over with giant cone-shaped flowers which are white at first, then pink and later in fall turning to copper and bronze. When cut, they last for weeks inside.

DOUBLE MOCK ORANGE

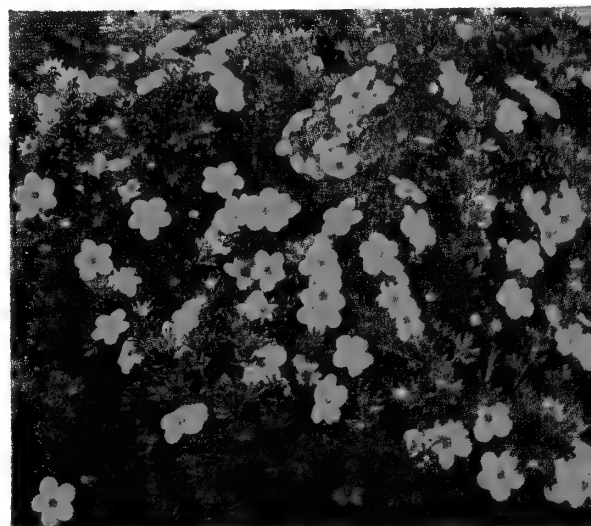

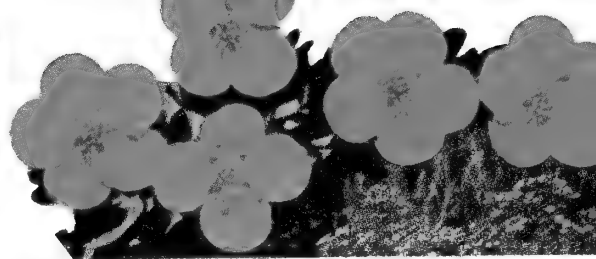

So sweet, so beautiful and so very romantic. Long, slender, erect branches heavily laden with lovely, pure white, sweet scented, 2-inch, double flowers during May and June. Thrives in pristine beauty even under the most adverse city conditions. Grows to an ultimate flowering glory of 4-6 ft. **2-3 ft., \$1.25; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.**

RED FLAME BUSH

Red-Leaved Barberry

Very charming all season with its flattering bronze-red foliage. Adds that spot of color needed to brighten up the landscape. Must be planted in a sunny location to maintain its rich red coloring. Grows naturally to a height of 3 feet, but may be pruned to any size or shape desired. **2-3 ft., \$1.15 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.**

GOLD DROP POTENTILLA

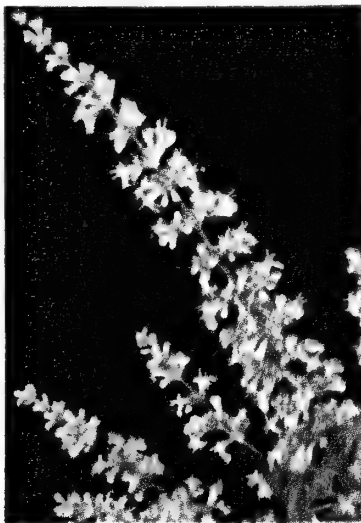

A charming, small, compact growing shrub which is cheerfully brilliant throughout the entire summer and fall. It is closely and densely covered with fern-like leaves, studded with intensely brilliant golden yellow, Buttercup-like flowers. A mound of green and gold all season. **\$1.50 each; 2 for \$2.75, postpaid.**

height -

Ideal for planting on the corner, between windows and as a background shrub for the smaller varieties listed on pages 6 and 7.

Rose-Gold PUSSY WILLOW

New. In late February or March has thousands of silvery catkins which progress through a fascinating series of color changes. First silvery gray, then turn silvery pink, then rosy pink dotted with hundreds of bright yellow stamens, finally become nearly solid gold. Low mounded plant. Attractive silvery foliage stays until winter. Catkins large, last for weeks and weeks. Can be forced indoors. Grows 4 to 6 ft. **2-3 ft., \$2.00 each; 2 for \$3.75. 18-24 in., \$1.50 each; 2 for \$2.75, postpaid.**

VITEX - Shrub Deluxe

The Distinctive Lavender Shrub

A 4-foot, dainty shrub of branching habit, which bears long spikes of lavender-blue flowers, forming a beautiful contrast to the silvery green foliage in August and September.

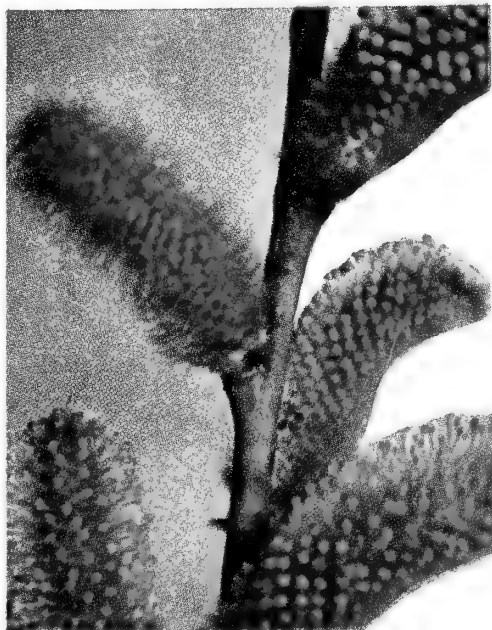

**Each \$1.25
2 for 2.25**

Postpaid

LILY-OF-THE-VALLEY FLOWERING SHRUB

Andromeda . . . Pieris Japonica

White, bell-shaped flowers are produced in graceful clusters that drape over the deep green, leathery foliage during April and May, giving the plant an almost ethereal beauty. Foliage changes to a bronzy red during the winter. You can enjoy its beauty indoors as well, since it will bloom just before Christmas if forced in a large flower pot. Prefers partial shade and well drained soil. A slow grower, but well worth the wait. Height 7-8 feet. **\$2.00 each; 2 for \$3.75, postpaid.**

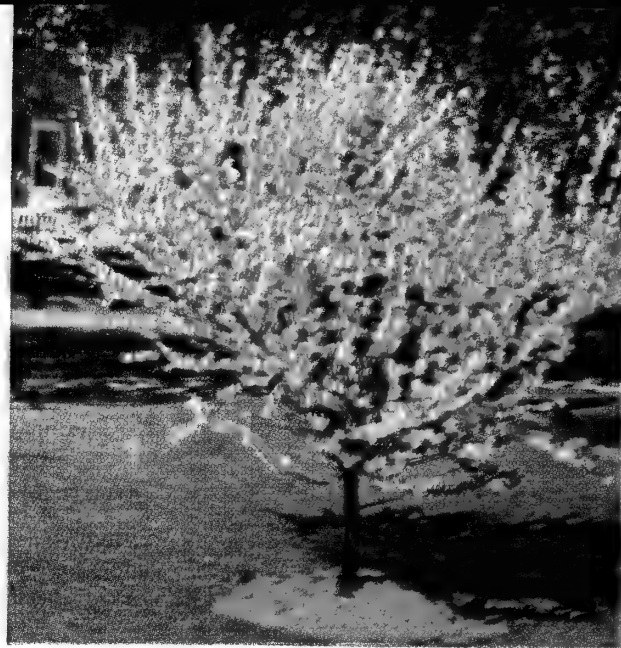

FORSYTHIA, "SPRING GLORY"

New! Larger, Brilliant Yellow Blooms for Earliest Color

A spectacular new Forsythia which bears masses of so much larger blooms than older varieties that a mature plant in full bloom in early spring is an almost unbelievable sight. The brilliant large yellow florets completely cover the branches, giving the effect of a giant sunburst. Canes grow erect with gracefully drooping tips. Very hardy in all sections of the country and thrives and grows vigorously in ordinary soil. Height 6 to 8 feet tall. **2-3 ft., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.**

ROSE TREE OF CHINA (Prunus triloba)

Branches are hidden under a fleecy cloud of bright pink double blossoms resembling small pink Roses, even before leaves are out in the spring. A breath-taking sight in full bloom, especially when it reaches full height of about 4 to 6 feet. Should be included in every yard. Very hardy and easy to grow. **3-4 ft., \$2.50 each; 2 for \$4.75. 2-3 ft., \$2.00 each; 2 for \$3.75, postpaid.**

LARGE FLOWERING SHRUBS

Sweet-Scented VIBURNUM

**Blossoms Toned Light Pink—
With Spicy Fragrance**

(Viburnum Carlesi)

A light, delicate, spicy fragrance from blossoms tinted a delicate pink. Commonly called the Pink Snowball, this unusual shrub is covered from top to bottom with heavenly scented flowers brushed lightly with pink—the insides a snow-white. A well shaped, bushy shrub 5 to 6 feet tall and just as wide, it branches lazily to the ground. Deep green foliage takes on a bronze-red cast in the fall. Planted in well appointed gardens from coast to coast, it never fails to add beauty, fragrance and distinction to any planting. **18-24 in., \$2.95 each; 2 for \$5.75. 12-18 in., \$2.45 each; 2 for \$4.75, postpaid.**

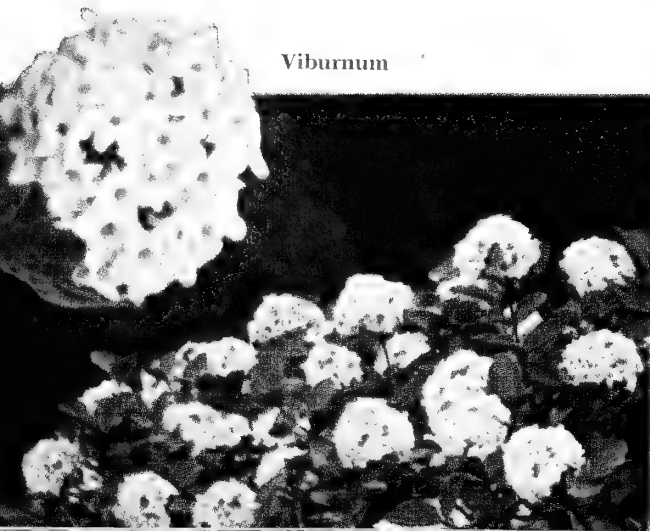

Extra Large PUSSY WILLOWS

Dainty silvery pink catkins grow on this fine cultivated French variety. Attractive shrub in summer which can be used for tall screen or background. No bouquet is complete in early spring without Pussy Willows. Grows 10 to 12 feet high. Catkins twice the size of common Willows. Do well in damp locations. **2-3 ft., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.**

WINTERBERRY

(Euonymus radicans erecta)

The bright green foliage of this broad, spreading shrub remains during the entire year. A plant that blends well with established evergreen plantings, it thrives in sun or partial shade. The red berries which appear late in the season make this shapely 4-5 ft. tall bush an unusually handsome addition to your garden. Definitely not an ordinary shrub, your neighbors will be asking you where they can get one, too. **18-24 in., \$1.50 each; 2 for \$2.75. 12-18 in., \$1.25 each; 2 for \$2.25, postpaid.**

Viburnum

Winterberry

ALTHEA HAMABO

Flowers are white and red, charmingly colored, brilliant, and contrast beautifully with the dark green foliage. One of the newer Altheas, but becoming a great favorite. A real contribution to the summer flowering shrubs.

2-3 ft., \$1.50 each; 2 for \$2.75, postpaid.

ALTHEA COELESTIS

Bright morning-glory-blue flowers, three inches across, pop open every day from midsummer until winter. Pretty pansy-red centers and white pistils. Fine for cutting. Fancy green leaves. Grows 5 to 6 feet tall. 2-3 ft., \$1.50 each; 2 for \$2.75, postpaid.

SPIRAEA VAN HOUTTEI

**The All-American National Favorite
Leaves Stay on All Winter**

"A thing of beauty is a joy forever" . . . the purest white flowers completely cover the graceful arching branches in May, transforming this green shrub into a lovely, mobile white waterfall. Graceful and fragile looking, but actually extremely sturdy. This popular Spiraea, which develops into a 6-foot or more shrub, will tolerate shade and niggardly city conditions, in any soil. Perfect for specimen planting or for a hedge since the leaves stay on all winter, it will increase in beauty each successive season. Really should be included in all plantings.

FRAGRANT LILACS

Fragrant, Large Clustered Blossoms

No wonder Lilacs remain an American favorite. Time has enhanced the fragrance and beauty of this delicate looking old-time favorite. The living landmark, they are hardy and vigorous in any soil or climate, growing to a scene-stealing height of 6 to 8 feet. Large, fragrant clusters open for Decoration Day—greeting the long summer still ahead. Deliciously fragrant, fragile beauties. We offer them to you in jewel-tones of amethyst-purple, or creamy pearl-white.

LARGE COLORFUL SHRUBS

The Lovely Flowering ZABELI HONEYSUCKLE

(*Lonicera zabeli*)

**A Shapely Bush
Fine Foliage**

A marvelous accent or specimen shrub. If you want a stunning flowering hedge at 4 to 5 feet, this is it. Sturdy, upright growth; attractive blue-green leaves; profuse red flowers in spring and long lasting red berries late summer and fall. If you wish to keep it thick and formally trimmed, plant 1½ ft. apart, but for its informal beauty, plant 3 feet apart.

2-3 ft., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.80, postpaid.

DOUBLE FLOWERING FRENCH LILACS

"When Lilacs last in the dooryard bloomed"—a lovely poem, but no more lovely than our selection of some of the finest double French Lilacs ever made to bloom by your dooryard. The most durable favorite of flower lovers everywhere, they are magnificent the very first year—and bring you sweet scented delight for a lifetime.

BLUE—Pres. Grevy. Soft blue-violet in large clusters. A great favorite.

WHITE—Mont Blanc. Large, compact clusters, purest white.

WINE-RED—Charles Joly. Its narrow, upright habit of growth is adapted to the smaller garden with limited space.

PINK—Belle de Nancy. A gorgeous mass of double flowers; very full with immense spikes.

LAVENDER—Pres. Carnot. Midseason. Bluish lilac.

PRICES: 18-24 in. plants, \$1.75 each; 2 for \$3.25, postpaid.

NANKING CHERRY BUSH (Prunus tomentosa)

Lovely Cherry-Like Blossoms Before Leaves Appear

A fine shrub with attractive clean looking foliage. The stems are covered with a profusion of Cherry-like bloom before the leaves appear in early spring. The fruit, an attractive bright red Cherry, is similar to sour red Cherry in flavor. Good for pies and jam. A good plant for filling the corner between house and porch. Grows 3 to 5 feet. 2-3 ft., \$1.25 each; 2 for \$2.25. 18-24 in., \$1.00 each; 2 for \$1.75, postpaid.

NEW FORSYTHIA, BEATRIX FARRAND

A Masterpiece of Loveliness

A new Forsythia originated at the Arnold Arboretum in Boston, by Dr. Karl Sax, and named in honor of Mrs. Beatrix Farrand, one of America's foremost women landscape gardeners and until recently landscape consultant for the Arnold Arboretum.

It is a vigorous grower and makes a large symmetrical bush. The deep golden yellow flowers with orange markings in the throat are over 2 inches in diameter. This variety is a hybrid between Arnold Giant and tetraploid variety and a diploid species.

NEW DWARF HONEYSUCKLE

(*Lonicera compacta nana*)

Compact in its habit of growth. Grows to a maximum height of 3 to 4 ft. Produces small yellow flowers in May, beautiful red berries in fall, which last most all winter, offering excellent fruit for the birds. Doesn't resemble any other Honeysuckle. Heavily furnished with leaves of a soft grayish green color. **12-18 in., \$1.50 each; 2 for \$2.75, postpaid.**

GOLDEN NINEBARK

Bears clusters of about 25 blooms, pinkish or greenish white in color in late May or early June. These are followed by conspicuous, five-lobed, reddish capsules which are changing color all summer. The leaves are five-lobed, coarsely toothed. Yellow foliage, making it an attractive shrub with the contrasting red capsules. The branches are gracefully arching, making it outstanding in flower arrangements. A large, spreading shrub to 10 feet.

HYPERICUM HIDCOTE

This Beautiful Hardy Shrub was Originated Several Years Ago in the Famous Hidcote Estate of England.

It was brought to this country five years ago and is proving more popular every year. In the temperate parts of this country from Washington south, it reaches a height of 4 to 5 feet and is practically evergreen. In colder parts it may freeze to the ground but it springs up again from the base in the spring, reaching 2 to 3 feet. The bright yellow flowers, 2 to 3 inches in diameter, are produced in profusion during the spring months and again during the summer. Planted 18 inches apart it will make a compact, attractive flowering hedge.

This beautiful shrub deserves a prominent place in every garden where continuity of flowers is wanted.

KELLY'S VINES

Secure Privacy—On the Porch—In the Garden—By Using Several of These Attractive Rapid Growing Vines

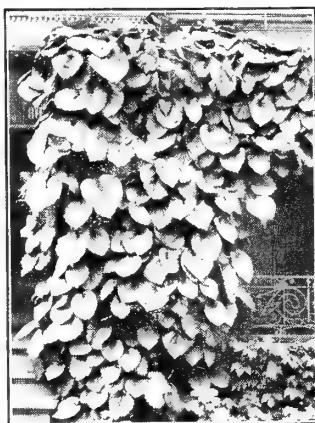

TRUMPET VINE (*Bignonia radicans*)

An old favorite that will stand most severe climatic conditions. Clings to any rough surface. Long, trumpet-shaped, brilliant orange-red blossoms. **85c each; 2 for \$1.60, postpaid.**

Place Your Orders Early

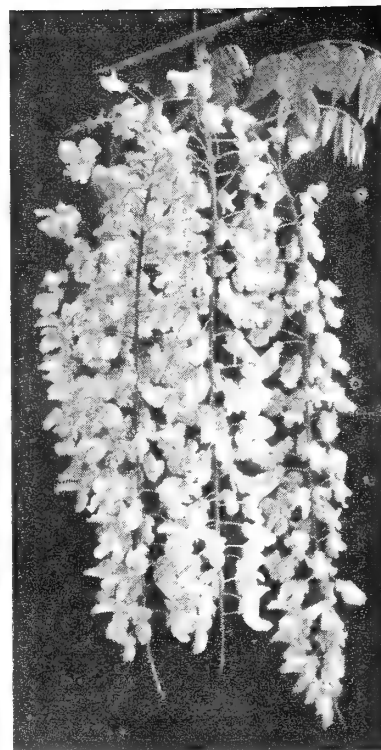

Early Orders help avoid "the planting time rush" and are much easier for us to handle. If you send us your order for nursery stock before March 4th, you may take advantage of our special premiums from the list appearing on page 4.

DUTCHMAN'S PIPE

(*Aristolochia siphon*)

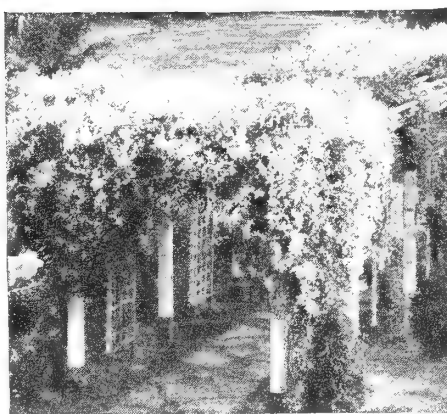

The curious brownish, pipe-shaped flowers are a delight to children, and the large, heart-shaped leaves make a dense screen. Few vines are better adapted to porches or pergolas. Grafted plants. **\$2.25 each, postpaid.**

WISTERIA

Long Cluster, Purple Flowered Vine

Heavy clusters of purple bloom look like giant bunches of purple Grapes hanging from the vine. Blooms in May and June. Grafted plants. Sure to bloom. **\$1.50 each; 2 for \$2.75, postpaid.**

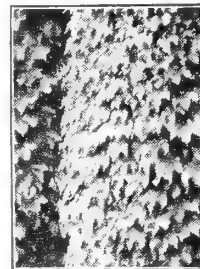

SILVERLACE VINE (*Fleece Flower*)

The delicate fleece-like flower resembles the finest white lace. Blooms heavily from mid-summer until fall. Grows about 2 feet the first season. **\$1.25 each; 2 for \$2.25, postpaid.**

ENGLISH IVY (*Evergreen*)

Ugly bareness becomes a spot of beauty when buildings of stone, concrete or stucco, and "hard - to - cover" slopes and banks are covered with the dense, rich, glossy evergreen foliage of English Ivy. Famous for long life. Mass effect can be created by planting 2 to 3 feet apart. **\$1.00 each; 2 for \$1.80, postpaid.**

Large Flowering CLEMATIS

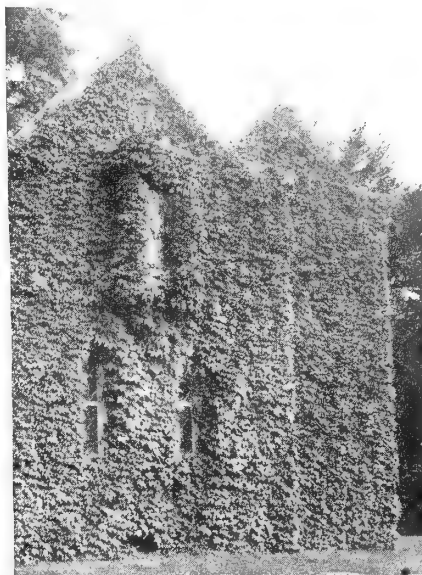

CRIMSON STAR. Rich red without purplish tones. Robust and free blossoming. **\$1.50 each; 2 for \$2.75, postpaid.**

JACKMANI. Rapid grower. Large, single, purple flower. **\$1.50 each; 2 for \$2.75, postpaid.**

MME. EDOUARD ANDRE. Deep purplish red blossoms with yellow stamens. Profuse summer blooms. **\$1.50 each; 2 for \$2.75, postpaid.**

MRS. CHOLMONDELEY. Delicate wisteria-blue with large open blossoms. Blooms profusely all summer long. **\$1.50 each; 2 for \$2.75, postpaid.**

PANICULATA. Fine white flowers. **\$1.50 each; 2 for \$2.75, postpaid.**

BOSTON IVY VINE

A vigorous climber that seems to thrive even under smoky city conditions. Bears a rich mass of dark green foliage. It will cling to almost any surface and its rich autumn color makes it most desirable for planting. **\$1.00 each; 2 for \$1.80, postpaid.**

BITTERSWEET (*Celastrus scandens*)

An old-fashioned winter bouquet variety. Common on the public markets around Thanksgiving time. Large clusters of orange and crimson berries are in great demand. **\$1.00 each; 2 for \$1.80, postpaid.**

Clematis Jackmani

Blueberries Besides Furnishing
the Favored Fruit for the
Table, Make Delightful Shrubs
in the Garden

To insure best crops of fruit, plant
two or more varieties for proper
pollination.

Blueberries like acid soil. To in-
crease the acidity use Aluminum Sul-
phate which is listed below.

Every Garden Can Find Space to Grow Blueberries

For Delicious Pies

Enjoy luscious, juicy, giant Blueberries right from your own
bushes. These mouth-watering beauties are as big as Grapes. De-
licious for pies, easy to preserve, fine for freezing. Bushes are trim
and very ornamental planted in borders or beds.

Complete planting and after care instructions sent with each order.

★ **ATLANTIC.** Very rugged bush that yields big quantities of
large, slightly aromatic dessert berries. Fruit has splendid freez-
ing qualities.

★ **BURLINGTON.** Extends the Blueberry season 5 to 10 days. A
sturdy, upright bush noted for its high production of medium
size, aromatic berries. An appealing color and firmness are fine
dessert qualities. Very good to ship.

★ **JERSEY.** Vigorous, hardy bush that grows erect up to 6 ft. or
7 ft. with delightful foliage. Produces large light blue berries
that ship well. Yields extra large berries. A fast growing, good
commercial variety. Attractive and very ornamental with large
leaves.

★ **PEMBERTON.** Considered the most vigorous of all. A very
fast grower of big firm berries. Firmness and slight aroma make
wonderful dessert. Very fast grower.

★ **RUBEL.** A very hardy, upright bush that gives generous yields
of medium size, light blue, firm fruit. Has average growth fac-
tors and is very much in demand. Its slightly tart flavor is
popular with pie bakers.

MASSACHUSETTS TRUENESS-TO-NAME INSPECTION SERVICE

Amherst, Mass.

Aug. 9, 1956

All of the Apple, Pear, Plum, Sweet Cherry, and 2-year Sour Cherry varieties propagated and now growing in the nurseries of Kelly Brothers Nurseries, Inc., Dansville, New York, have been examined by the Massachusetts Trueness-to-name Inspection Service. To the best of our knowledge, these trees are true to name as they now stand in the nursery row.

KELLY'S APPLES

GENERAL LIST OF APPLE TREES

SUMMER APPLES

Months listed after description indicate the time at which the fruit is at its best for general use. Dates indicate time of ripening.

- ✓ **RED DUCHESS.** A solid red strain of the old Duchess of Oldenburg. One of the hardest varieties grown. Fruit is large, striped red in color. A good early eating Apple. Vigorous grower. Regular and prolific bearer. Excellent for pies and sauces. August 5-10.
- ✓ **LODI.** A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. August 10-15.
- ✓ **RED GRAVENSTEIN.** A new red sport, much more attractive than its parent. Differs from old Gravenstein, being solid dark red in color, is a better keeper and hangs better on the tree. September 10-15.
- ✓ **RED ASTRACHAN.** One of the best summer varieties, as it becomes fully ripe and ready for home use from late July to August. Fruit very handsome, large, round, nearly covered with deep crimson, overspread with thick bloom; juicy and good though rather acid. Tree medium size, yielding good crops. August 2-6.

Prices of Kelly's Inspected Apple Trees

2-yr., 3-4 ft.	1.50	1.35	1.25	1.00

Commercial growers interested in 50 or more trees, please write for Commercial Price List which lists all the varieties we grow.

6 GOOD APPLES In Color on Page 22

Kelly Bros. Recommend These Varieties as
Excellent for the Home Garden

- ✓ **CORTLAND.** An Apple of the McIntosh type, combines the high quality and flavor of the McIntosh, and tendency to hang to the tree of the Ben Davis. The fruit of Cortland is larger than that of McIntosh, round in shape, color bright red splashed with carmine and overlaid with purplish bloom. October-February.
- ✓ **DOUBLE RED DELICIOUS.** A large, dark red Apple, with crisp, fine-grained flesh of excellent quality and flavor; a splendid keeper and shipper. Tree one of the hardest. A regular annual bearer. Excellent for eating and the most popular fruitstand Apple. Nov.-March.
- ✓ **MILTON.** Bright pinkish red, large, flesh tender, very white and a refreshing aroma. An early and annual bearer. Excellent for home and roadside markets. September 15-20.
- ✓ **YELLOW DELICIOUS.** A bright, golden yellow Apple of excellent quality. Firm, crisp, and very juicy. Splendid keeper. Bears young and heavily. October to April.
- ✓ **RED McINTOSH.** (Rogers Solid Red Strain.) Without doubt the leading commercial variety of New York and the New England States. A very attractive red Apple of the highest quality. Hardy, bears young and annually. Flesh white, fine, very tender, juicy and refreshing, with attractive flavor. October-January.
- ✓ **RED ROME.** Red sport of Rome Beauty, and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red color. December-May.

✓ **EARLY McINTOSH.** For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform, round shape. The tree is a vigorous grower, hardy and productive. Tends to be a biennial bearer, although for annual crops early thinning is recommended. It comes into bearing at an early age. The flesh is white, tender and juicy with fine flavor. August 15-25.

✓ **WEALTHY.** Beautiful, moderate sized, brilliant red Apple; fine quality. Owing to hardiness of the tree, its adaptability to cold climates and early bearing habits, can be profitably planted as a filler. September 15-20.

✓ **YELLOW TRANSPARENT.** Fruit of good size; skin clear white turning to pale yellow; flavor acid and very good, making it excellent for cooking. Begins to ripen some time in July and continues for 3 or 4 weeks. Tree very early and abundant bearer. August 3-7.

WINTER APPLES

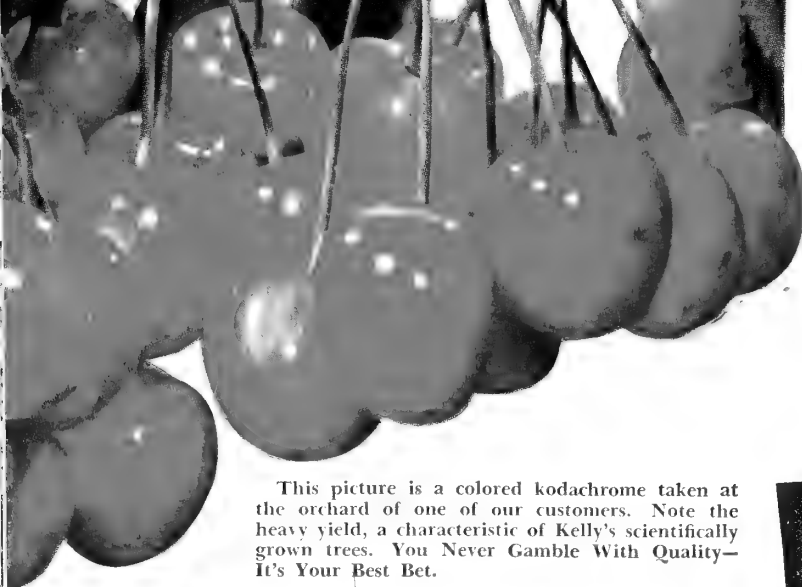

Months listed after descriptions indicate the time at which the fruit is at its best for general use.

- ✓ **BALDWIN.** Yields large crops and is an excellent shipper. Highly regarded as an eating and cooking Apple, having a flavor all its own. Fruit is large, bright red, crisp, juicy and rich. December-March.
- ✓ **MACOUN.** A late McIntosh type Apple ripening about 10 days later than McIntosh. Dark red with whitish, close-grained flesh. Fine quality. A heavy and regular bearer. Introduced and recommended by N. Y. Experiment Station. November.
- ✓ **MONROE.** A Grand New Apple from the N. Y. Experiment Station. Named and introduced for trial in 1949. Tree upright-spreading, vigorous and an annual bearer. Fruit large, roundish conic; color similar to Jonathan, its maternal parent. Flesh yellowish, crisp, juicy and mildly sub-acid; quality good. Winter Apple that offers possibilities for dessert and culinary uses. Supply limited—order today. **1-yr. trees, \$1.50 each; 3 for \$4.25; 10 for \$12.50. 2-yr. trees, \$2.00 each; 3 for \$5.75; 10 for \$17.50.**
- ✓ **NORTHERN SPY.** Easily ranks among the very best winter Apples. Fruit is large, very attractive, being of bright red color with a pronounced bloom. Flesh is juicy, crisp and excellent for dessert or culinary purposes. Keeps well in storage until April or later. November-April.
- ✓ **RED SPY.** A new red sport identical with Northern Spy, except that the fruit is a solid bright red without either stripe or splash- es. Much handsomer than its parent. November-May.
- ✓ **RHODE ISLAND GREENING.** As a cooking Apple it is unsurpassed, and as a dessert fruit of its season, has few equals. It is a good keeper but keeps better if picked early. This Greening is a beautiful yellow color when ripe and an abundant yielder. December-April.
- ✓ **ROME BEAUTY.** Yellow and red-striped Apple of excellent quality. Prolific annual bearer. Early bearer and good keeper. Profitable commercial sort for New York, Ohio, Pennsylvania, and West Virginia. December-May.
- ✓ **STAYMAN.** Comes into bearing young. A reliable cropper. Medium to large size fruit. Slightly striped, coloring to dull red. December-March.
- ✓ **YELLOW DELICIOUS.** See illustration, page 22, and description at left.

✓ **DAVEY.** Plant Pat. 906. A McIntosh seedling from the orchard of S. L. Davenport, North Grafton, Mass. Thoroughly tested, we can recommend it. Bears early and annually. Resistant to scab. Blossoms with McIntosh, matures with Baldwin. Distinct flavor of its own. Texture resembles Wealthy. Size and shape similar to McIntosh. Easy to handle, good shipper. **Price: 2-yr. trees, \$1.50 each; 3 for \$4.00; 10 for \$12.50.**

To insure cross-pollination be sure to plant two varieties of Apples.

NORTHERN GROWN • TOP QUALITY • PROLIFIC CROPS

Cherries

**Sturdy
Upland Grown
of Matchless Quality**

This picture is a colored kodachrome taken at the orchard of one of our customers. Note the heavy yield, a characteristic of Kelly's scientifically grown trees. You Never Gamble With Quality—It's Your Best Bet.

The Great **NAPOLEON** (Royal Ann)

Choice Sweet Cherry. Good for market and canning. Large size, beautiful Cherry, pale yellow with bright red cheek; sweet, juicy and firm. The leading pink cheeked Sweet Cherry. Ripens July 7th to 10th.

Cherry Collection No. 4
 1 Black Tartarian 1 Napoleon 1 Windsor

 You Save \$1.05

Black Tartarian

WINDSOR Sweet Black Oxheart

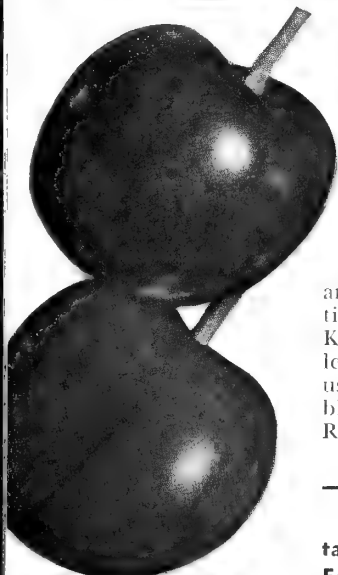

One of the best quality dark Cherries, often referred to as Black Oxheart. Has pinkish flesh and almost black skin. Large, juicy and firm. Delicious to eat fresh, and wonderful for canning. Used extensively for fancy preserving. Tree grows upright and is a rapid and vigorous grower. A good commercial variety. Ripening date July 20-26.

Windsor

BLACK TARTARIAN

Well known and popular sweet Cherry; very large, bright purplish black, juicy, and has a rich flavor. Excellent for canning and a good shipper. Trees are remarkably vigorous and erect growers, produce immense crops. Ripening date June 20-July 4.

Schmidt's Bigarreau

SCHMIDT'S BIGARREAU

A midseason black sweet Cherry. Considered one of the best large varieties of its season. Delicious to eat fresh and canned, and very attractive. Fruit grows in clusters. Keeps well and is an excellent shipper. In size it is usually unsurpassed by any black Cherry in the East. Ripens about July 10.

Order early, take advantage of our Premiums for Early Orders. See page 4.

MONTMORENCY THE LEADING SOUR CHERRY

"Best Pie Cherry." Fruit is good sized, fine flavor and bright, clear red. The canning factories are always calling for them and buy them by the hundreds of tons. The best of all sour varieties; is a good shipper, very attractive and always brings good prices. Fruit ripens early to mid-July. It is self-fertile.

NORTHERN GROWN • TOP QUALITY • PROLIFIC CROPS

Cherries —Continued—

BLACK GIANT

Was introduced by Luther Burbank in 1914. Tree is large, vigorous, very productive. Cherries are attractive in size and color; the crop is late, coming in season just before Lambert, which the black fruits resemble. Quality is excellent and less subject to cracking than Bing. One of Burbank's most notable productions.

EMPEROR FRANCIS

King of All Sweet Cherries

Recognized as one of the newer leading sweet Cherries for home and commercial orchards. This high quality Cherry resembles Napoleon in size and color except that it becomes a little darker. Ripens around July 4th. Sold at same prices as regular varieties.

Many people often ask which varieties we would suggest for planting. We highly recommend WINDSOR, EMPEROR FRANCES, NAPOLEON, and SCHMIDT'S BIGARREAU. Each one pollinates the other—any combination of two or more gives desired results.

POLLINATION OF CHERRIES

Sweet Cherries are self-unfruitful, so must be interplanted. Where Napoleon, Bing, Lambert and Emperor Francis are to be planted together, another variety, such as Windsor or Black Tartarian must be added, as the first four will not pollinate each other. The Sour varieties are self-fruitful. Sour Cherries will not pollinate Sweet Cherries, and vice-versa.

New! HALL'S ALMOND

We are pleased to offer this new improved dual purpose tree that blooms so beautifully and bears a fine crop of delicious Almonds. Northern grown; these trees are hardy and can be grown wherever it is possible to grow peach trees. They produce abundant crops of top quality, nutritious nuts. Used extensively by commercial bakers and confectioners, and housewives everywhere. Hall's Almond is a rapid growing young bearing nut tree. The nuts are large and of fine quality—its dual purpose of being a fine ornamental makes it an attractive addition to any landscape planting—the blooms are attractive, the foliage is deep green in color. Best results are obtained by planting 2 trees. Supply limited—order today. **Prices: 4-5 ft., \$2.75 each; 2 for \$5.35. 3-4 ft., \$2.00 each; 2 for \$3.85, postpaid.**

Kelly's

BEACH PLUM

(Prunus Maritima)

Ideal as a shrub—also produces delicious fruits. Bears first or second year after planting. Grows 6 to 8 feet at maturity. Hardy; does well in poor soil. Beautiful white blooms late in the spring before the leaves appear. Purple fruit, ripe in September, makes excellent jelly. **Selected plants, \$1.95 each, postpaid.**

Cultivated

ADAMS ELDERBERRY

For Wines and Jellies

The large berries and extra large fruit clusters of this improved variety are far superior to common varieties. Grows 5 to 6 feet tall. Popular for pies and home-made wines. Beautiful as an ornamental plant. **Bearing size plants, \$1.25 each; 2 for \$2.25, postpaid.**

For commercial planting, write for prices.

HOW TO FIGURE NUMBER OF PLANTS NEEDED PER ACRE

Multiply the distance the plants are to be set apart by the width of the row. This result divided into 43,560, the number of square feet per acre, is the number of trees or plants required for an acre.

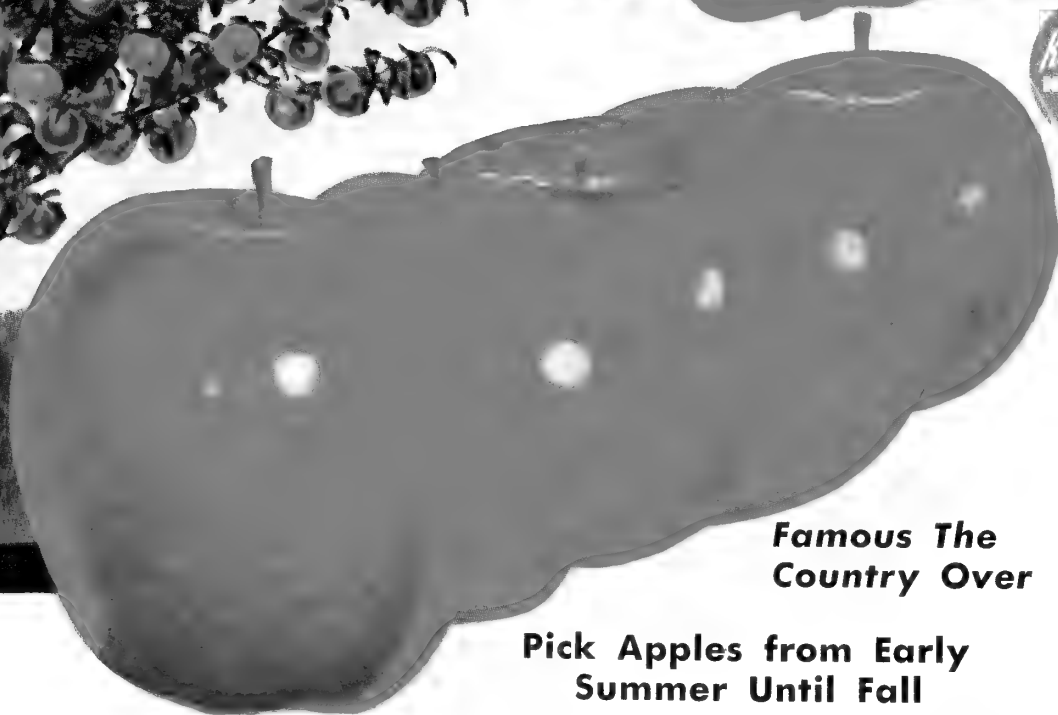

Variety	Age of Bearing	Distance Apart	Number per Acre	Variety	Age of Bearing	Distance Apart	Number per Acre
Apples, Standard	2 to 7 years	35 x 35 ft.	35	Currants	2 years	4 x 4 ft.	2,722
Apples, Dwarf	2 years	15 x 15 ft.	193	Grapes	2 years	6 x 8 ft.	907
Apricots	3 years	20 x 20 ft.	108	Peaches	2 to 3 years	20 x 20 ft.	108
Asparagus, Field	2 years	2 x 5 ft.	4,356	Pears, Standard	3 to 4 years	20 x 20 ft.	108
Asparagus, Garden	2 years	15 x 3 ft.	10,249	Pears, Dwarf	2 years	15 x 15 ft.	193
Blackberries	1 year	4 x 6 ft.	1,815	Plums	2 to 3 years	20 x 20 ft.	108

Scientifically Budded to Produce Five Kinds of Apples on One Tree —

KELLY'S DELICIOUS PEARS

Seckel Pear

ANJOU. This is one of the best late fall and early winter varieties for the market, its season lasting until way into January, even in common storage. Large fruit, green in color, but turning to yellow when ripe, dotted with russet. The yellowish white flesh is firm, but tender, very juicy, sweet, spicy, with a rich, vinous flavor. Trees hardy and vigorous growers, come into bearing early. October to January. (September 25.)

DUCHESS D'ANGOULEME. The fruits excite admiration and wonder by their enormous size. Always known by this characteristic. All dull greenish yellow, spotted russet. Trees are vigorous, hardy and healthy. It is a particularly desirable sort for the Pear fancier. Nov. to Dec. (Sept. 25-30.)

GORHAM. A seedling of Bartlett and closely resembles its parent in all characteristics and ripens from 3 weeks to a month later. It rivals Bartlett in all good qualities, being as large and handsome and as good or better to eat or to can. Fine canner—introduced by the New York State Experiment Station. (September 10-25.)

TYSON. The Home Orchardist's First Choice. The quality of this old favorite is far superior to that of commonly grown Pears. The tree is a thrifty grower and very hardy—fruit is medium size, juicy with a spicy, scented sweetness that gives the fruit the charm of individuality. (Ripens late in Aug.)

SECKEL. The Pear to plant for eating fresh and pickling. Medium size, skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh very fine grained, juicy, sweet and good. Trees resistant to blight, very productive and hardy. Should be planted in fertile soils, not heavy clay. Sept. and Oct. (September 20-25.)

Kelly's Top Quality Northern Grown Popular Pear Varieties

Clapp's
Favorite

POLLINATION

Two varieties are needed. The combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

CLAPP'S FAVORITE

A Full Bodied Pear That Should be in Everyone's Fruit Garden

Precedes Bartlett, which it resembles in size, shape, color and flavor. It is the first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine texture, juicy, buttery, with a rich, sweet, delicate vinous flavor. Tree hardy and productive. Thrives where other varieties fail. August 15-20.

BOSC - Quality Pear

"Long Tapered"

Kelly's Has Recommended This Variety for Years

A Pear which is rated by all as "very good" or "best." Has a long, tapering neck and a long stem which allows it to sway in heavy winds without dropping. Brownish yellow in color. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. The tree is a slow grower, but most productive. Oct. to Jan. (Sept. 25-30.)

Bosc Is Very Long and a Delicious Eating Pear

SHELDON

The fruits please both the eye and palate. It is distinctive in its russeted skin with a ruddy cheek. Flesh is juicy and deserves to be called luscious. Flavor is sweet, vinous and highly perfumed. Keeps well and ships well. Trees are vigorous and hardy. October. (September 20.)

Kelly Brothers Nurseries, June 17, 1956.
Dear Sirs: The 210 Apple trees I ordered from you this year, arrived in perfect condition and are growing beautifully in our small newly started orchard.

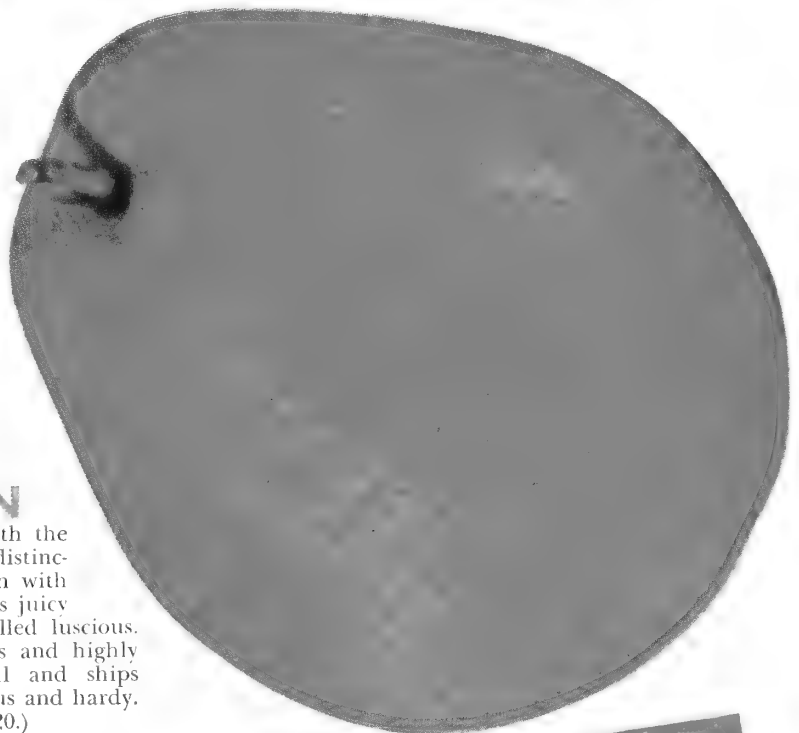

Very truly yours,
MRS. HELEN MALTESE.
Stamford, Vermont,
P. O., No. Adams, Mass.

Kelly's Famous

BARTLETT

America's Favorite for Size and Taste

There's hardly a person that doesn't know the Bartlett Pear and its qualities, as it is grown in, and is adaptable to all different climates, soils and situations. Fruit is large, golden yellow in color with a reddish blush on the sunny side. Flesh is tender and juicy, with a delicious musky aroma. Trees are vigorous, attain large size, bear young, live long, and barring frosts or freezes, they bear full crops year after year. Justly the leading commercial Pear—a leader among canning Pears. Sept.-Oct. (Sept. 1st-10th.)

PLUM and PRUNE TREES

Strong 2-Year Heavy Rooted Young Trees

Other Popular Plums (Not Illustrated)

- ✓ **ABUNDANCE.** Trees are adaptable to wide range of soils and climates, and bear not only heavily but yearly. Fruit large, very early, amber turning to a rich, bright cherry. Flesh light yellow, very juicy and tender. Freestone. Good for canning. Should be picked when not quite ripe, as it keeps better and taste develops better. August 15-20.
- ✓ **BURBANK.** Fruit very large, bright reddish purple. Meaty and quite firm. Should be picked before entirely ripe. Best colored fruit attained when thinned on the trees. Trees are low growing, flat-topped with somewhat drooping branches. Productive and vigorous. Good shipper. Aug. 25-30.
- ✓ **FELLEMBERG PRUNE.** Also known as **Italian** and **German**. Widely known and valuable Plum for dessert, but most esteemed for market and drying for preserves. Fruit is long, oval, purple with a thick bloom. Flesh firm, sweet and pleasant, separating freely from stone. Moderate growth. A great favorite and there is always a good market for them at profitable prices. Sept. 24-26.
- ✓ **DAMSON.** Fruit is medium size, dark purple, produced in thick clusters. Good to eat out of hand when fully ripe or after a light frost. One of the best of its kind for culinary purposes. Tree a good grower and very productive. September 24-28.
- ✓ **REINE CLAUDE or GREEN GAGE.** Has beautiful fruit, large, pale yellow, marked with red if the crop is thinned and sufficiently exposed to the sun. Trees attain only moderate size in the orchard, are productive and bear regularly. Deserves a place in the home orchard. September 25-30.
- ✓ **STANLEY—A Better Kelly Prune.** Popular with the commercial and home gardeners. The best for commercial planting or home use. Bears fruit in three years and ripens 10 days earlier than other varieties. Exceptionally productive. Fruit large, deep bluish purple, firm and sweet; of excellent flavor. Introduced by the New York State Experiment Station, and is becoming a valuable commercial variety. Bears annually. Midseason. September 20-25. Same price as other Prune trees.
- ✓ **SANTA ROSA—A Deluxe Plum of Great Size.** A very promising Oriental variety. Fruit is handsome, dark reddish purple. Large with very juicy, red flesh of good quality. Tree is large, vigorous and moderately productive. August 20-26.

POLLINATION

With the exception of the Prunes: Fellemberg, German, Stanley, etc., which are self-fruitful. Plums should be interplanted to insure a set of fruit—European varieties for pollinating that class and Oriental sorts for those varieties.

Abundance, Burbank and **Santa Rosa** are Oriental varieties, balance are European varieties.

See Page 40 for the New Miracle Plum.

Bradshaw—Sweet and Tasty

BRADSHAW PLUM

Juicy — Heavy Bearer

A very large and fine early Plum. Attractive, dark violet skin with yellow flesh. Very juicy; excellent for dessert use and for canning. The tree is hardy, and a vigorous grower. Especially desirable because of its ability to produce heavy crops of delicious fruit annually. Bradshaw is recommended for the home orchard as well as for the commercial grower. September 5-10.

Choice Rhubarb

VALENTINE. Newest and best of the red Rhubarbs. It is sweetest of all, requiring the least sugar. Makes delicious pies and bright red sauce. Excellent for home use and freezing. Out of 25 varieties tested in Canada, "Valentine" rated highest. Color was an even bright red; texture smooth and tender. Flavor pleasing with a slightly tart after-taste." **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

RUBY RED. Another new red Rhubarb introduced from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby is as red as Strawberry sauce. Skin so tender it can be cooked with the stalk. Prolific yielder. **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

CANADA RED. The reddest of all Rhubarbs. Has large, tender, juicy stalks that are rich red all the way to the heart and even to the midribs in the leaves. Skin so tender you need not peel it. Canada Red, a heavy producer, can be used throughout the season. **\$1.00 each; 2 for \$1.85; 6 for \$4.85, postpaid.**

NEW RED LEAF PEACH

Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Deep rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small perfectly round Peaches, about 1½ inches in diameter. Fruits have an over-all red color slightly spotted, and ripen quite late.

NEW!

CHINESE CHESTNUT

A FINE LAWN TREE • FRUIT SO GOOD TO EAT

Hardy, Blight Resistant

These new blight resistant trees will bear nuts two years after planting. They are a fast growing tree and an ideal plant to take the place of the old-fashioned American Chestnut that we all remember from our childhood days. The fruit is fully as delicious as the native American Chestnut and slightly larger in size. Grows to 35 ft. tall. Best crops are insured by planting two or more trees for pollination.

Kelly's RED HAVEN

A new, early Peach, thoroughly tested and found highly satisfactory. Introduced by the South Haven Experiment Station, it has the fine flavor of the South Haven and the Hale-Haven. When other early Peaches are still green, this Peach is a bright red and ready to ship before it is fully ripe. A Peach to plant for real profit. Hardy. Freestone. Self-pollenizing and a prolific yielder. August 20-25.

Golden
Jubilee

Hale-
Haven

Kelly's

GOLDEN JUBILEE

The Sensational Peach
Excellent Canner

We recommend this New Jersey Experiment Station introduction. It's a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe winters and heavy frosts. **Golden Jubilee** is without equal as an early, large yellow freestone of highest quality. Flesh is yellow, tender, juicy and sweet. August 20-25.

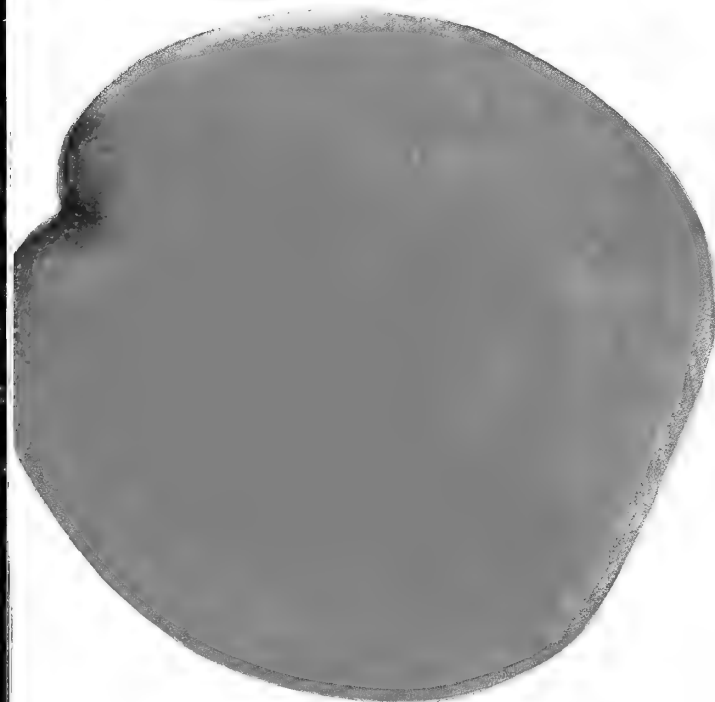

Kelly's HALE-HAVEN

A marvelous Peach, result of crossing the famous J. H. Hale with South Haven. A large, beautifully colored, yellow-fleshed Peach. Ripens approximately 10 days to 2 weeks ahead of Elberta. Perfect freestone; strong grower. Good shipper, and a prolific, heavy bearer. The tree is hardy and fruit is of the highest quality. Should be in every planting. September 1-5.

Red
Haven

Enjoy Kelly's Quality Peaches -

FOWLER

This Peach, developed by Mr. George R. Fowler of Marlboro, N. Y., was awarded Patent No. 567 in 1943. It is a large, yellow Peach of the Elberta type, very hardy. Tree of vigorous growth and exceptionally disease-resistant. Fruit matures a week later than Elberta, ripening evenly. Firm, thick-skinned, excellent shipper. Fine flavor and practically fuzzless. **For prices on Fowler add 15c per tree to our Peach tree prices on page 31.**

Kelly's ELBERTA - A National Favorite

Leader of all Peaches and the greatest commercial variety on the market; 50% of the Peaches planted are Elberta. A beautiful Peach of good quality; not only the best orchard variety but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow with red cheek, juicy, high flavor. Flesh yellow; freestone. September 15-20.

Peaches can be grown on any soil that will produce the average yield of farm crops and are especially adapted to the lighter soils. If properly cared for the trees are sure to bring in a handsome return on your investment. Our trees are of the best quality and sure to grow.

Dates after each description indicate approximate ripening season in Western New York. Season varies in different sections of the East, but this will give you an approximate idea when to expect the fruit to be ripe.

✓ **BELLE OF GEORGIA.** Large, attractive white-fleshed Peach. Red cheek. Hardy and productive. Freestone. September 3-7.

✓ **CHAMPION.** Large, creamy white, with red cheek. Excellent quality. Good shipper. Hardy and productive. Freestone. September 5-8.

✓ **J. H. HALE.** An extra large Peach, yellow overlaid with crimson. Flesh golden yellow, of delicious flavor. An excellent shipper. A fine commercial variety. Prolific when cross pollenized with some other variety. All of the varieties offered in this catalog are suitable for planting with Hale. Freestone. September 17-21.

✓ **RIO-OSO-GEM.** An outstanding commercial variety. A Hale type Peach, following Elberta 7 to 10 days. Fruit large, brilliant red color. Flesh firm and excellent flavor. Fine for freezing, canning and other uses.

✓ **SULLIVAN ELBERTA.** Midseason, ripening one week before Elberta. Fruits large. Similar to Elberta in all respects except earlier ripening. One of the most extensively planted varieties in the past few years, especially in the Southeast.

✓ **VALIANT.** Large, yellow freestone. Juicy, very good quality. Excellent producer and fine canner. Quite hardy in bud. An introduction from Canada. August 28-September 5.

✓ **VEDETTE.** Ripens a few days before Valiant and 3 weeks before Elberta. Fruit is large, roundish oval, yellow-fleshed, and a freestone. Superior quality and color. August 25-30.

✓ **VETERAN.** Large, round, yellow-fleshed fruit. Freestone. Since it ripens a few days later than Valiant, it makes a desirable sort to follow that variety. Hardier in bud than most varieties. Ideal for cold sections. August 30-September 4.

✓ **JERSEYLAND.** Very early, ripening about 5 weeks before Elberta. Fruits medium sized, round. Skin solid red. Flesh yellow, usually free when ripe, firm. Promising for local marketing and commercial production.

✓ **FAIRHAVEN.** Early midseason, ripening after Golden Jubilee and about 3 weeks before Elberta. Flesh yellow, free. Good for freezing and canning. Promising variety for local marketing and commercial production.

✓ **SUNHIGH.** (New Jersey Introduction.) Good quality. Yellow flesh. Hardy. Ripens just ahead of Goldeneast.

✓ **SUMMERCREST.** (New Jersey Introduction.) Yellow freestone. Ripens just before Elberta.

NEW Summer Long EVERBEARING PEACH

(Plant Patent No. 1503)

4-6 ft. Trees Only \$2.95 2 for \$5.75 Postpaid

Here's a brand new Kelly introduction in 1956. Just imagine a Peach tree bearing Peaches starting about the 20th of July through the 25th of September.

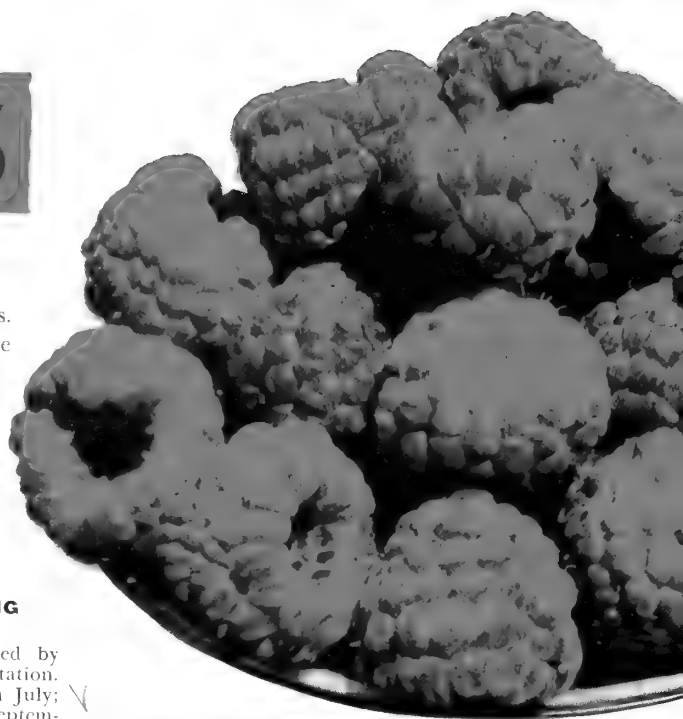

The tree produces medium size, freestone Peaches of excellent quality. The flesh is very sweet and tasty. It has good firm skin, which does not bruise easily. This is a real novelty and a practical plant. Instead of having fruit for only a week or two, now you can pick fruit for as long as two months.

Our supply of these trees is definitely limited. We suggest that you order today.

Kelly's RASPBERRIES

Guaranteed to Grow and Bear

Our dependable Raspberries are fully developed with strong fibrous roots. Besides being decorative, they are easy to grow, and within a year you will be enjoying quality fruit picked fresh from your own garden.

LATHAM

A Great Commercial Berry
10 CHOICE PLANTS, \$2.75

The leading Red Raspberry in all parts of the country. Latham is free from insects and diseases and multiplies rapidly. Berries are large, plump, juicy, free from seediness and full of delicious flavor. Very hardy; cold weather seems to have no effect on its bearing ability. Ripens July 1-10.

NEW! RUST PROOF ALUMINUM TRELLIS

The first innovation in trellis design of the 20th Century. You won't want to use any other type trellis, when you see this new style.

Its attractive lustre-brite, silver-like finish will accent the beauty of your flowers and vines. It is economical because it lasts indefinitely, never needing to be painted, as it is rust-proof.

Anyone can install this trellis easily and quickly. It provides numerous surfaces for vines to grip, being 10 feet high and 24 inches wide.

This trellis has everything.
All hardware included.

PRICE \$5.95 Each
Postpaid

Easy to Use PORTER PRUNING SHEARS

This anvil-type one-hand Pruner was developed to meet the requirements of the professional and the occasional user alike. It is carefully designed to cut easier and better, and will last longer than others of similar type. The special steel cutting blade is more rigid and successfully resists tendency of blade to pass anvil when making parallel or diagonal cuts.

The exclusive plastic-covered comfort grips are tough and resilient—will not crack or peel. They are particularly easy on the hands—no slipping—no blisters. Positive thumb lock is conveniently located. No more pinching of hands while cutting.

(Plant Pat. No. 1079) →

Exceptionally compact specimen for upright, narrow shape. Suitable for pillar shrub, hedge or pyramid. Ultimate height 4 to 5 feet, spread about 18 inches. Will respond to shaping. **10-12 in., \$2.95 each; 2 for \$5.75, postpaid.**

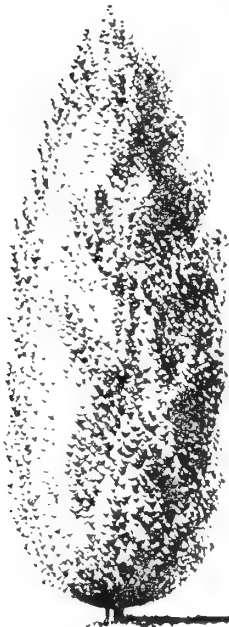

Emerald Charm

The Exciting New PYRAMIDAL Flowering Crab Tree

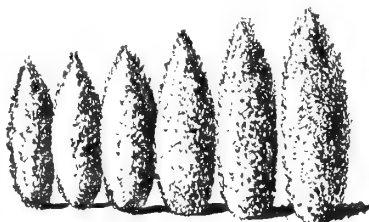

Strathmore

An entirely new type of Flowering Crab tree has all of us here at the nursery very excited. It is a type that grows in the general shape of a Lombardy Poplar, hence, we refer to them as "Pyramidal Flowering Crabs." A tree to use for screening off undesirable sights, to plant as a background on the side or back of a lot, as corner plantings for the home, or for specimen ornamental trees in a small yard. Strathmore grows 10 to 15 ft. tall, and can be planted 3 to 5 ft. apart for a screen or windbreak.

We like Strathmore for its foliage as well as for its habit of growth. The leaves remain reddish all summer and turn strikingly red and scarlet in autumn. The flowers resemble those of Hops, but are somewhat darker.

ALL-PURPOSE HOE

A "Must" for Every Gardener

JUST WHAT YOU NEED FOR YOUR GARDEN

\$2.25, Postpaid

The goose-necked shank permits close cultivation of small plants. Weighs only 1½ lbs. but the "All-Purpose" Hoe is stronger than most other hoes. Women find that they can use the "All-Purpose" Hoe without fatigue. The "All-

Purpose" Hoe will weed and mulch between plants and in corners that no other hoe can reach. It will dig dandelions, plantain and weeds from your lawn without disfiguring it. Blade is the finest oil-tempered spring steel and has 7 inches of cutting surface. Hardwood handle is 44 inches long, finished in natural color. Shank and blade are bronze welded.

Rochester 18, N. Y.,
Aug. 23, 1956.

Kelly Brothers Nurseries, Inc.,
Dansville, N. Y.

Gentlemen: The All-Purpose Hoe with the goose neck is the miracle worker in your garden, for it takes the backache out of gardening. Is wonderful for seeding because it makes a clean straight row, just the depth you want.

It is light to handle, and fun to have a garden free from weeds. Truly no woman should be without this marvelous hoe.

Yours very truly,

MRS. LEONARD WASSDORP,
52 Stoneleigh Court.

Member of Oak Hill Garden Club.

DAWN REDWOOD

(*Metasequoia Glyptostroboidea*)

A most unusual tree, recently introduced in America, or more correctly, reintroduced, as fossils from Elko, Nevada, show that this tree existed in North America a great many years ago.

In 1941 a Japanese paleobotanist described *Metasequoia* from fossil specimens at a time when the tree was believed to be extinct. Three years later, several large specimens were discovered growing in a remote village in Central China. Shortly after this discovery Dr. E. D. Merrill of the Arnold Arboretum, Harvard University, contacted Dr. W. C. Cheng, a Chinese Forester at Nanking and arranged for seeds to be sent to him for propagation.

The seedlings vary greatly in their growth, some attaining as much as 4 feet of growth

in one summer, but others about half as much. A seven-year-old specimen in Northampton, Mass., is already 20 feet tall.

This tree grows in open or half shaded locations, but seems to thrive best when planted along streams or close to abundant water supply. It is hardy throughout the country, and appears to have no special soil preference.

The foliage is deciduous, bright apple-green, and about one-half inch long. It is a cone-bearing tree, resembling the Bald Cypress of the southern swamps. Cones are freely produced on 8 to 10-year-old trees, globose, mostly about 1 inch across.

More or less pyramidal in shape. Not an evergreen. A valuable new introduction.

EUPHORBIA SPLENDENS

"Crown of Thorns"

**Something Different
in a House Plant**

Legend tells us that this is the plant with which Christ was crowned. A very interesting plant, having long flexible stems, well armed with stout spines.

Easy to train to a form, and is attractive with its bright red bracts produced most of the year.

Hardy Pecan

This tree is one of America's largest hardwoods. Growth is much more rapid than the Hickory, and 4 times that of the Oaks. Makes a wonderful clean specimen tree, affording an abundance of shade.

Leaves long, of a light glossy pastel green. Produces great quantities of delicious medium sized thin-shelled nuts, that fall free of hull.

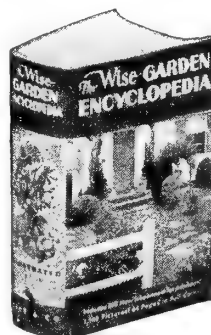

This tree, like the Hickory, has one long powerful tap root, which takes a long time to dig, but having practically no side roots makes planting easy.

KELLY'S HEAVY BEARING

BLACK BERRIES

▼ HEDRICK

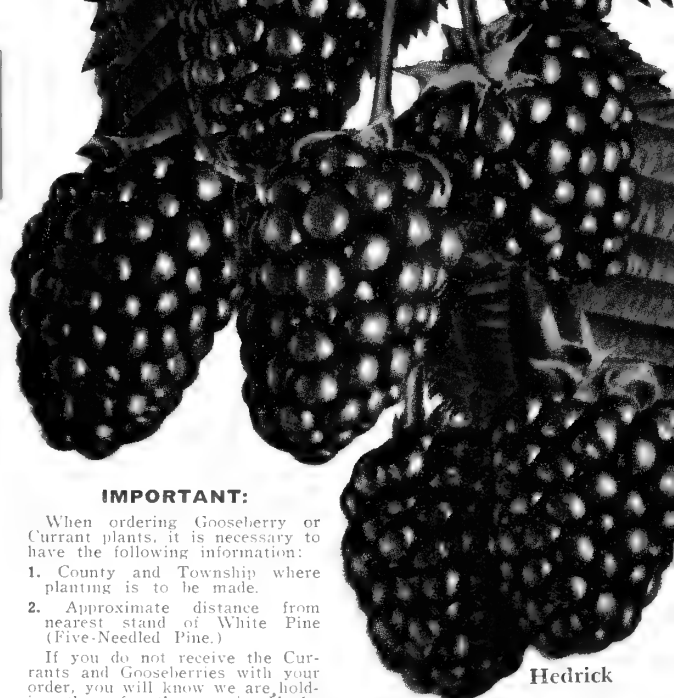

Here's a new Blackberry introduced by Dr. Geo. L. Slate at the New York Experiment Station. Bound to become the country's leading Blackberry. For that reason, intensive breeding work has been going on at the New York State Experiment Station to improve Blackberries. The berries are somewhat larger than Eldorado, without core and of good quality. Ripens in Western New York during the latter part of July. We would suggest that you try this new variety. For home use and commercial production, there is a need for good Blackberries.

▼ BAILEY BLACKBERRY

Here is a new Blackberry introduced in 1950 by Dr. Geo. L. Slate of the New York State Experiment Station. Intensive breeding work has been going on at the New York State Experiment Station to improve Blackberries. Bailey is now considered the best of recent introductions, and we are concentrating our production on this variety. The berries are large, attractive, moderately firm, sub-acid and of good quality. The plants grow tall, vigorous, hardy and productive. Ripens in western New York during the latter part of July. For home use and commercial production, we recommend this variety to you.

▼ CUMBERLAND THE LEADING LATE BLACKCAP

Produces large, jet-black fruit, firm and of excellent quality. Starts to ripen in mid-season, continuing for several weeks. Fruit is large, plump, sweet and juicy with a true "Blackcap" flavor all its own. Free from seediness and crumbling and an ideal shipper. The most popular of all black varieties wherever Blackcaps are grown. July 5-10.

No. 1 Bearing-Age Plants

All 20 for Only \$4.75, Postpaid

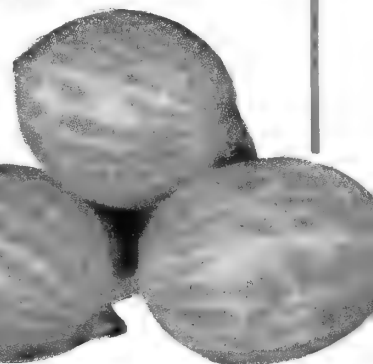

GOOSEBERRIES

Strong Grower . . . Delicious Fruit

POORMAN. Largest fruit of the American Gooseberries. Attractive red. Prefers heavy soil. Bush very vigorous. Highest quality of any Gooseberry.

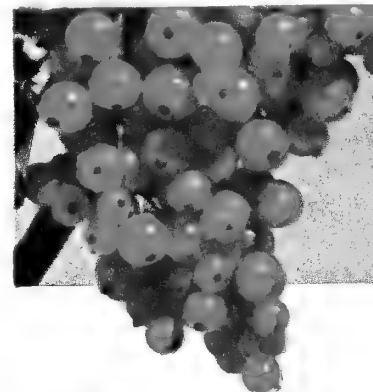

PIXWELL. A new variety considered the best on the market today. A very heavy bearer with the berries being a light green that turns to pink when fully ripe. Will bear the next year after planting.

Selected, 2-yr. plants,
\$1.25 each; 2 for \$2.25,
postpaid.

CURRENTS

RED LAKE. The new, giant red Currant. A pleasure to pick. Berries are large, dark red in color, and on long, well filled branches. Very hardy. Ripens over a long season. Long stems make picking easy. **Select, No. 1 plants, 70c each; 3 for \$1.80; 10 for \$5.50; 25 for \$13.25, postpaid.**

▼ THORNLESS BOYSENBERRY

Giant Size
Delicious Flavor

Canes smooth as velvet. Ripens ten days to two weeks earlier than the common Boysenberry. The thornless strain retains all the good characteristics of its parent, including its rugged, thrifty growth. You will enjoy picking these large, juicy berries without a chance of scratching your hands. **Select plants, 3 for \$1.15; 6 for \$2.05; 10 for \$2.55; 25 for \$4.65, postpaid.**

The Great New INTERLAKEN SEEDLESS GRAPE

**A California Seedless Type That Is Hardy In the North
If You Want a Good Sweet Grape With Meaty Body—
Plant This Approved Variety**

Origin: The new Interlaken Seedless originated at the Agriculture Experiment Station at Geneva, New York, after 30 years of experimenting and close breeding. It was developed from crossing the Thompson Seedless, a California Grape, with our own Ontario and an excellent golden seedless Grape was developed.

Hardiness: It has proven hardy in temperature to 15 degrees and no material harm has been noticed until after temperatures have reached 20 degrees or below.

Quality: The fruit is very sweet and blends with the flavors of both its parents, but is even better than the Thompson Seedless. The flesh is meaty and crisp and of excellent texture. The cluster of berries is of medium size, golden amber color and with a tangy flavor. It ripens a full month before Concord, and due to its hardiness and excellent qualities promises to become one of the leading fresh fruit Grapes here in the North. Ripens about August 30th or earlier. **Selected 2-year vines, \$1.50 each; 2 for \$2.75, postpaid.**

STEBEN - Blue Black

A new variety of the New York Experiment Station of Geneva, New York.

CACO A Large Red Grape
Excellent Bearer

✓ CONCORD GRAPE

**A National Favorite—Bunches Are Large
Color All-Over Blue-Black**

The leading commercial Grape. Color blue-black; berries and bunches large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for Grape juice. September 25 to 30. **75c each; 3 for \$1.95; 10 for \$5.45; 25 for \$11.25; 50 for \$17.50; 100 for \$29.75, postpaid.**

✓ STEUBEN, Blue-Black Grape

**A New Creation of the New York State
Experiment Station**

Never before have we grown a Grape of such exquisite flavor. Melting, tender, sweet with a delicate perfume-like flavor. Grows huge, perfectly formed, long slender clusters. Fruit is of outstanding quality, and the vine very hardy. Produces a full crop after 20 below zero. No spraying necessary—it is absolutely free from rot and mildew in our planting. Ripens a few days before Concord, but keeps well until Christmas. The greatest blue Grape ever grown. Supply limited—order early. **Selected 2-yr. vines, \$1.50 each; 2 for \$2.75, postpaid.**

✓ CACO

Large Sweet Red Grape

A new Grape which is proving to be a great favorite. Berries very large and sweet.

A dandy variety for the home vineyard or Grape trellis. Sept. 28-Oct. 30. **75c each; 3 for \$1.95; 10 for \$5.45; 25 for \$11.25, postpaid.**

✓ ROMULUS SEEDLESS GRAPE

A sister to the Interlaken. (They were both developed at the N. Y. State Experiment Station.) We can recommend this new variety to extend your Grape season. Ripens about September 15th or 2 to 3 weeks after Interlaken Seedless.

Flavor, quality, size of berries and clusters very closely resembles the illustration of Interlaken Seedless on page 34. **Select vines, \$1.50 each; 2 for \$2.75, postpaid.**

KELLY'S HEAVY GRAPE VINES for Flavor-Size-Yield

✓ New Extra Choice Grapes

SEIBEL 9110 - New French Hybrid

Developed in France, this Grape is a beautiful golden yellow. Because of its excellent dessert qualities and early fruiting habit, we recommend that this variety be added to your planting. It is common for 2-year vines in the nursery to bear fruit. It has crisp texture and its good eating quality makes it a fine variety for roadside sales. Ripens in western New York about Sept. 15th. **2-yr. select vines, \$1.50 each; 2 for \$2.75, postpaid.**

✓ GOLDEN MUSCAT

California Type Grape

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine Muscat aroma of European Muscat. Vine is vigorous, productive. The clusters are very large and compact. Berries are large, juicy, sweet and tender. Oct. 5-10. **Selected, 2-yr. vines, \$1.00 each; 3 for \$2.75, postpaid.**

✓ VAN BUREN (Black)

Best new, early Grape. Desirable for home and commercial planting. Resembles Concord, but much sweeter and very juicy. Aug. 28-Sept. 2. We highly recommend this variety. Vine is heavy producer and vigorous in growth. **Selected, 2-yr. vines, \$1.00 each; 3 for \$2.85, postpaid.**

EASY TO CARE FOR—LAST A LIFETIME

Kelly's Grape Vines last a lifetime. Plant our selected plants. Guaranteed to be the finest grown. Easy to grow, adapted for a wide range of soil and climate. Prolific bearers. Fruit ideal for dessert, jelly, jam or juice. Planting instructions with each order.

Holds first place as an early white variety. Vine is hardy, healthy and productive. Bunch and berries largest of all white Grapes. September 1-8. **75c each; 3 for \$1.95, postpaid.**

STRAWBERRIES

RED RICH *Strawberry*

Red Rich Bears All Summer

Plant Patent No. 993

Here at last is the Strawberry that's a real sensation. A one-in-a-million chance seedling. Enjoys all the finest qualities known to Strawberry plants. **READ WHAT UNIVERSITY REPORT SAYS:** Quote: "Of the 29 everbearing varieties tested here last season Red Rich is by far the best. I think it is the everbearer for which we have been waiting. (Signed) Herschel L. Boll, Assistant in Pomology, Agriculture Dept., University of Illinois."

BEARS ALL SUMMER—gives you luscious, honey-sweet Strawberries all summer long throughout the fall until winter freeze.

MAMMOTH PLANTS—HUGE BERRIES, we've never seen plants so big and strong. This means disease resistant strength and enormous yields.

PLANT BY NEW METHOD, WONDERFUL YIELDS. Each Red Rich plant shipment carries new "Space System" planting instructions. Follow carefully and get up to a pint per plant the first year and up to a quart per plant the second. Fewer plants needed—25 plants per person is plenty.

TOPS FOR FREEZING. Slice one. They're red clear through. Plenty of natural sugar and a firm texture that holds shape when thawed. Wonderful winter desserts.

Sparkle

of the New Strawberries

GROWN FROM VIRUS-FREE PLANTS

STELEMASTER - New 1957 Introduction

One of the latest introductions of the U.S.D.A., Beltsville, Maryland, because of its resistance to all races of red stele now known in the eastern United States. The champion of all in this respect. Ripens about the same time as Blakemore. Berries are uniform, smooth and of good size. Flesh is light red, juicy and firm, with flavor mildly sub-acid. Plants are very vigorous and productive, also its resistance to disease will meet demands and develop its popularity. Our stock is a strain grown from the U.S.D.A. virus-free plants.

New type, weathers well. Acts as a cold frame or greenhouse for early planting and frost protection. **\$6.95, postpaid.**

COMPLETE SPRINKLER

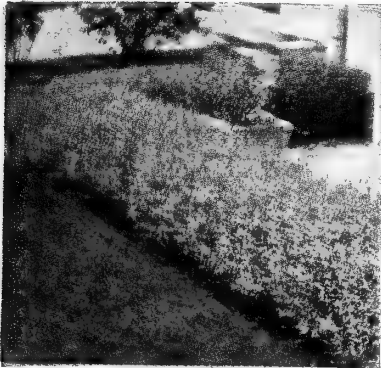

Includes nozzle, copper tubing and hose connection at base. Runs through bed and out under bottom band to connect with garden hose. **\$5.25, postpaid.**

HEDGES Grown By Kelly!

FENCE THE FRIENDLY WAY

Be Neighborly-

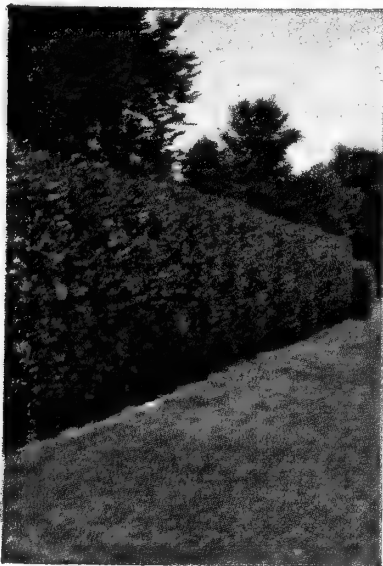

Blue-Leaf Hedge

The Effective

BLUE LEAF HEDGE

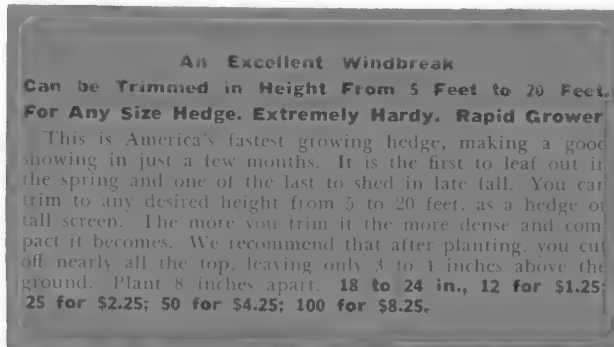

A new, charming, silvery blue-green shrub. Grows anywhere, in sun or shade, dry, wet or heavy soils where other plants perish. If left untrimmed, its feathery, willowy foliage makes a beautiful, compact, dwarf hedge 3 feet high and 2 feet wide. If trimmed it makes a colorful low, formal hedge. Just the thing for low edgings, around beds or along walks. Single specimens are delightful in the rock garden. Plant 1 foot apart.

Honeysuckle Hedge

Midget Hedge, Teucrium

An Excellent Windbreak

Can be Trimmed in Height From 5 Feet to 20 Feet.
For Any Size Hedge. Extremely Hardy. Rapid Grower

This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 5 to 20 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above the ground. Plant 8 inches apart. 18 to 24 in., 12 for \$1.25; 25 for \$2.25; 50 for \$4.25; 100 for \$8.25.

RED LEAF BARBERRY

Very popular for specimen grouping and for edging taller plantings of shrubs or evergreens. Glossy purplish red leaves. Makes a brilliant colorful hedge. Plant 12 to 15 inches apart.

2 Good Hedges

BRIDAL WREATH - Spirea Van Houttei

One of the best known shrubs of America. Exceptionally hardy and will grow in either sun or shade. Attains a natural height of 5-6 ft. and is completely covered with clusters of small white flowers in June. Can be trimmed any time during the summer. Plant 3 feet apart for an informal hedge. 12-18 inches, 10 for \$3.75; 25 for \$8.75; 50 for \$14.95; 100 for \$24.95.

BUSH HONEYSUCKLE - Lonicera tatarica

Very hardy, growing in the poorest soil. Flowers freely in May and June with fragrant pink flowers, followed by red berries in the fall that are attractive to birds. Rapid growing, attaining a height of 8-10 ft. and is ideal for specimen planting, hedging or screening purposes. 12-18 inches, 10 for \$3.95; 25 for \$8.25; 50 for \$14.95; 100 for \$24.95.

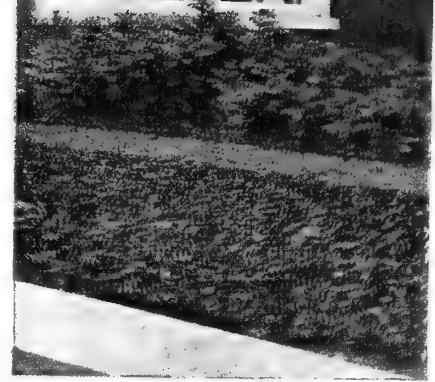

MIDGET HEDGE - Teucrium Chamaedrys

A low growing hedge suitable for edging or growing in front of a wall. Resembles dwarf Boxwood, holding its leaves 10 months of the year. Grows 10 to 15 inches but can be sheared at any height lower than that. Hardy and thrives in most locations. Should be planted 6 inches apart for a dense hedge. 10 for \$3.95; 25 for \$8.75; 50 for \$14.95; 100 for \$24.95.

GREEN LEAF BARBERRY THUNBERGI

Best all-purpose hedge of marked excellence because of its bright green foliage, changing to brilliant colors in the fall. Has bright scarlet berries throughout the winter. Dwarf and regular spreading in habit. Grows well in shade, used extensively in landscape work. Very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge.

	10	25	50	100

Amur River Privet

AMUR RIVER PRIVET

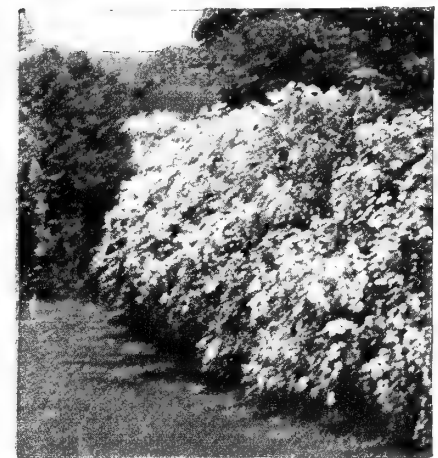

Extremely Hardy — They
Withstand the Severest Winters

Best for northeastern conditions. Will grow 10 feet in height but may be pruned to any height and sheared to desired form. Branches are upright, foliage oval or oblong; can be made very dense by pruning. Resembling California Privet in growth. Very hardy and almost an evergreen, holding its green leaves almost all winter. Plant 9 to 12 inches apart.

IT'S NEW!

**The Most Sensational
Fruit of A Decade!**

HOWARD'S MIRACLE PLUM

(Plant Patent No. 721)

The Wonder Plum of the Age

This new fruit marks a new era in the advancement of fine fruits for the table. It has a delicious and tantalizing flavor, is large size, has firm amber flesh, and its red and yellow Maple leaf color places it in a class by itself.

Those fortunate enough to have eaten this fruit, offer various comments as to its flavor. Some say the taste is like Pineapple, others compare the taste to a Peach, Plum and Nectarine combined. Invariably, after tasting the "Howard's Miracle", comes the exclamation: "This fruit is truly a miracle. It is something out of this world." "HOWARD'S MIRACLE" is even more delicious in preserves.

Has a thin skin which is unnoticeable when eating, while the meat is Nectarine-like in quality. The fruit of Howard's Miracle is extraordinarily large, averaging 2½ to 2¾ inches, but the seed is only miniature.

It is beautiful for lawn planting, foliage becomes richly tinted in the fall, similar to a Maple. Very hardy—having been reported by customers to survive as much as twenty degrees below zero in northern Wisconsin without any damage. Being self-fertile, it does not need another tree for pollination.

Howard's Miracle is undoubtedly the most exciting fruit today. You will find that you have never tasted fruit like it. Is it Nectarine? Is it Peach? Is it Plum? Is it Pineapple? Plant one or more of the exceedingly fast growing, quick bearing trees and harvest fruit the second year.

3-4 ft., \$2.25 each; 2 for \$4.25, postpaid.

An ornamental tree of medium size, foliage persistent, in autumn richly tinted not unlike the leaves of a Maple. Can be grown in a small garden.

Plants Grow 6" - 12" Tall

Every Child Should Have a Garden of These Dwarf Roses

These fascinating little plants are true Roses, with tiny thorns, foliage, buds and blooms that are exact mimics of the finest big exhibition Roses. But the full-grown plants of these Miniature Roses are only 6 to 12 inches tall, and the biggest blooms are only about an inch across. They start blooming in May and keep right on all summer. All they ask is good soil, good drainage, a fairly sunny spot and reasonable care. They thrive in the garden, and are as hardy as the big Roses.

★**RED IMP.** Pat. 1032. This new Miniature Rose is a deep, rich crimson that is startling in its brightness. It is an unfading, even color with no light markings. Fully, solidly double, with 45 to 60 petals packed tightly right to the center. Opens very flat. The beautiful buds and blooms are as perfectly formed as the best of the big Roses. **\$1.25 each; 3 for \$3.30, postpaid.**

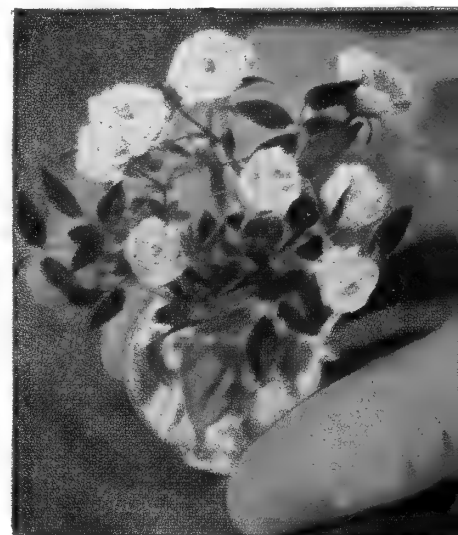

Red Imp

★**PIXIE.** Pat. 408. World's tiniest, fully double white Rose, 40 or more petals neatly arranged into perfectly formed flowers only ¾ inch across. Buds sometimes have a pinkish tinge, which is carried over into the flowers during the cool season and may last until they have fully expanded. At other times will be pure white. Very free in bloom. Dainty foliage. It is hardy as the big Hybrid Teas, starts blooming earlier in spring and continues until fall. **\$1.25 each; 3 for \$3.30, postpaid.**

★**BO-PEEP.** Pat. 976. Adorable, deep rose-red buds and densely double, arbutus-pink flowers. Very free in bloom, with many buds together in strong, branching flower sprays. One of the tallest. **\$1.25 each; 3 for \$3.30, postpaid.**

★**OAKINGTON RUBY.** Miniature red buds open to double 1-inch flowers. Hardy; free flowering. Fine hedge or border plant. One of the best Miniatures. **\$1.25 each; 3 for \$3.30, postpaid.**

Bo-Peep

Pixie—A Dainty Rose

Oakington Ruby

Evergreens for Beauty

SPREADING PFITZER'S JUNIPER

This evergreen naturally grows in a low, wide-spreading habit. It will stand considerable shade and crowding, which makes it a favorite for foundation and informal plantings. If kept untrimmed, will spread 4 to 5 feet. Can be kept low to the ground by trimming. **10-15 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.**

PYRAMIDAL ARBOR-VITAE

On account of its rapid growth, its bright green color, its shapely even pyramidal habit and ease of trimming, this evergreen ranks among the leading ones for the Eastern United States. Will grow 15 feet tall but seldom over 2 feet in diameter. May be freely cut and trimmed and thereby kept within any bounds necessary. **12-18 in., heavy transplants, \$2.00 each; 2 for \$3.90, postpaid.**

Pyramidal Arbor-Vitae

PURPLE SPREADING ANDORRA JUNIPER

Low and spreading, seldom reaching more than 15 to 18 inches in height, but will spread out for several feet. Particularly desirable because of the gray-green summer color and the pinkish fall and winter color. Especially desirable for planting in groups or as a border to taller trees or for covering banks. **9-12 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.**

GLOBE ARBOR-VITAE

A natural globe-shaped evergreen. Has broad fan-shaped leaflets. It is dwarf in its habit of growth, usually not growing over 3 feet tall or 3 feet in diameter. Fine for doorway and foundation planting or for formal designs, tubs and urns. **8-10 in., heavy transplants, \$1.50 each; 2 for \$2.90, postpaid.**

UPRIGHT JAPANESE YEW (TAXUS CAPITATA)

The normal habit of this Yew is a pyramidal form, broad at the base and tapering to the top of the tree. A rapid growing tree, so can be trimmed back at least twice during the summer. **15-24 in. transplants, \$2.50 each; 2 for \$4.75, postpaid.**

HICKS' YEW

TAXUS HICKSI

A narrow, upright Taxus with vertical branches. Can be kept trimmed to a desired shape and height. It has rich, dark, glossy green color, making it very popular. Tree resistant to extremes of heat and drought.

12-18 inch, heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.

Globe Arbor-Vitae

SPREADING JAPANESE YEW (TAXUS CUSPIDATA)

This evergreen usually grows more wide than tall. Branches out from the bottom with several stems, developing into a bush form. Rich, dark green foliage with numerous crimson berries in the fall. Does well in sunny and northern exposures. Fine for foundation plantings. **12-18 in., heavy transplants, \$1.75 each; 2 for \$3.25, postpaid.**

Ornamental and Shade Trees*

CRIMSON KING MAPLE

(Plant Patent No. 735)

You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months. Crimson King has been under close observation in this country for 10 years, and in every instance has kept its rich coloring throughout the season. It has been said: "Crimson King is beautiful beyond words." Grows 25-40 feet tall.

	Each		Each
5-6 ft.	\$5.95	4-5 ft.	\$4.95

The Majestic, Colorful Crimson Maple Tree

Rosa Rugosa—A Fine Shrub With
Lovely Rose-like, Double Flowers

ROSA RUGOSA Flowering Shrub

The rich green foliage of this plant, which ultimately grows 4 to 6 feet, is most attractive. Everblooming in its nature, large pink flowers are produced from June until September. It is unique that the large red fruits are ripening at the same time that the plant is blooming. Very hardy. It is recommended for areas near salt water.

	Each	2 for
18-24 in.	\$1.25	\$2.25
12-18 in.	1.00	1.75

Climbing Hydrangea

CLIMBING HYDRANGEA (Hydrangea petiolaris) The Choicest of All Vines

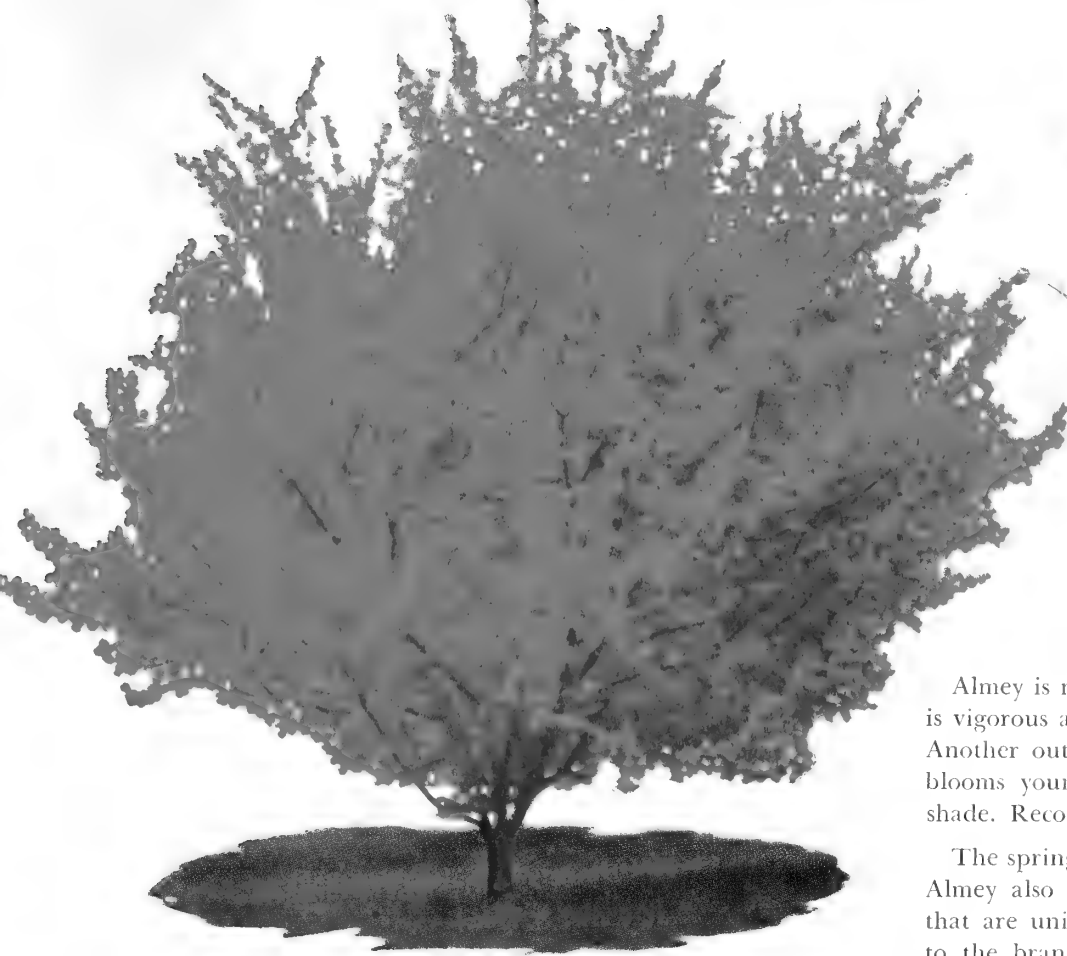

This perhaps is the finest and choicest of all the vines. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps. Its foliage is bold, clean and shrub-like, and a rich dark green color. White, fragrant, Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing. Does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west walls or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired. **Price, \$3.00 each.**

CHINESE REDBUD Cercis Chinensis

This charming, brilliant spring-flowering shrub is a Chinese counterpart of the American native Redbud. It flowers at the same time, but quantity and quality of the flowers far surpass those of our common wild form. It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple-red blossoms almost double the size of the common variety and noticeably darker. You will surely want this in your garden. Ultimate height from 6 to 8 feet. **Price, 3-4 ft. trees, \$2.95 each.**

Large Leaves

Almey Flowering Crab
Today's Most Beautiful Flowering Tree

SENSATIONAL MORAINE LOCUST

(Plant Pat. No. 836)

An Outstanding Shade Tree of Unusual Character

We are proud to offer this sensational shade tree, because we believe it so perfectly fills the needs of today. For the many new homes which have no shade trees whatever, it will provide good shade quicker than any tree we know of, and is superior in many ways to other fast growing trees.

The Moraine Locust is hardy, drought-resistant and grows successfully on a wide range of soils. It will withstand the same extremes in temperatures as the common Honey Locust, and is long-lived. Because it is sterile, there are no unsightly seed pods to clutter up the lawn, and its non-fruiting habit also makes for better foliage. It is also thornless.

Vase formed in shape, wide spreading when older, like stately old Elm trees. Branches are arching upward and outward, easily reaching over the tops of two story houses, without obstructing view or affecting air circulation. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage growth of crab grass.

These trees are easily transplanted and seem to produce good growth on any kind of soil. Will respond favorably to extra feeding.

Try a planting this spring. Grows to a height of 25 to 40 ft.

	Each
6-8 ft.	\$7.50
5-6 ft.	\$5.95

Flowering ALMEY CRAB

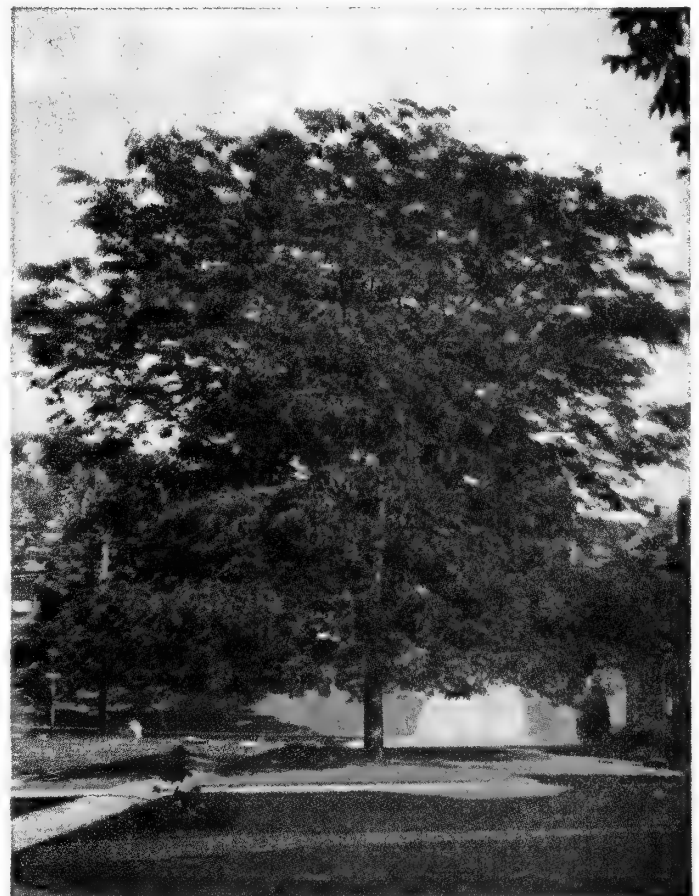

Fiery Crimson Blossoms in Early Spring—Scarlet Fruits in Fall and Winter

An outstanding Flowering Crab that blooms in the spring. The blossoms are dollar-size flowers of rich glistening, fiery crimson. White markings at base of each petal gives effect of a five-sided star. This lovely tree thrives in poor soil and is perfectly hardy in cold sections.

Almey is not a large tree—about 12 to 15 feet—but it is vigorous and attains its mature height quite rapidly. Another outstanding characteristic of Almey is that it blooms young. It thrives well in full sun or partial shade. Recommended also for small gardens.

The spring show is not all. A graceful tree in growth, Almey also produces in profusion small scarlet fruits that are unique in their habit of clinging tenaciously to the branches long after the leaves have dropped, providing another high spot of color long into the winter.

	Each	2 for
5-6 ft.	\$4.00	\$7.50
4-5 ft.	3.25	6.25
3-4 ft.	2.50	4.75

Majestic Moraine Locust

The Dogwoods

RED FLOWERING DOGWOOD

(*Cornus florida rubra*)

Grows to a 12-foot tree. Everyone knows this lovely artistic tree. Produces a great profusion of large rose-red flowers in the spring; glossy red berries in the fall. A most adaptable tree; adds greatly to any landscape picture because of its fall fruit, red color and unique branching habit. 2-3 ft., \$3.75; 18-24 in., \$3.00, **postpaid.**

DOUBLE WHITE FLOWERING DOGWOOD

(*Cornus florida*)

Has all the charm, artistry, and adaptability of the popular White Dogwood, and in addition bears double flowers. Very hardy and heavy flowering. A small tree which grows in shade or sun and in ordinary soils, even in somewhat wet places. Typical bright red berries and red fall foliage. 3-4 ft. trees, \$2.75, **postpaid.**

TREE WISTERIA

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. On the lawn they develop into beautiful specimens, increasing in beauty and dignity each successive season. Can be kept trimmed to a height of 6 to 8 feet. **Grafted, sure to bloom. 3-4 ft., \$4.95 each, postpaid.**

See Page 4 for Free Premiums for Ordering Early

COLORFUL LAWN TREES

ELEYI PURPLE LEAF FLOWERING CRAB

The tree is hidden in the spring by masses of wine-red blossoms. An outstanding specimen, with handsome bronze foliage turning to bright red in the fall. Attractive deep red fruits persist into the winter. The fruit makes a brilliant distinctive jelly. Tree grows to about 10 to 12 ft. tall and makes an ideal ornamental lawn tree. 4-5 ft., \$2.50 each; 2 for \$4.75, **postpaid.**

EUROPEAN MOUNTAIN ASH

Much more satisfactory than the native species, since it fruits more prolifically and has more compact habit. Large, flat clusters of white flowers in the spring. Clusters of flashy, orange-red berries all over the tree in summer and fall. Deep green, clean foliage perfectly implements the graceful, upright habit. Grows to a height of 18 to 25 feet with a spread of 15 feet maximum. 6-8 ft., \$4.95 each; 5-6 ft., \$4.00 each; 4-5 ft., \$3.50 each.

Order by mail—it is an excellent way to buy.

You can depend on first class, ready-to-grow plants—fresh from our big nurseries at Dansville, New York.

WISCONSIN WEEPING WILLOW

There are few trees that can be used to such advantage for cheery winter effects. Grows fast, adapted to a variety of soils and uses. Is very hardy, and beautifully effective near pools, along drives and on lawns. Grows 25 to 30 feet tall.

	Each	3 for	5 for
6-8 ft.	\$3.75	\$10.50	\$16.25
5-6 ft.	2.75	7.50	11.25
4-5 ft.	2.25	6.00	9.50

RED-FLOWERING CRAB

(*Malus Floribunda*)

This small tree is round-topped with single, carmine buds that change to pink and then white. Very heavy bloomer with small blood-red fruits, which can be used for jells. Will stand severe winters and drought. 15 to 20 feet at maturity. **4-5 ft., \$2.50; 2 for \$4.75, postpaid.**

GOLDEN CHAIN TREE

No picture can do justice to this rare, low growing tree. Its long clusters of pure golden yellow are similar in form to the well known Wisteria, and often reach 18 inches in length, as many as 6 or 8 clusters on a small twig. Does well in either partial shade or full sun. A show plant all season, with its decorative green bark and large, clover-like leaves. **5-6 ft., \$5.50 each. 4-5 ft., \$4.75 each.**

PURPLE FRINGE - Smoke Tree

SOMETHING TO RAVE ABOUT

The One and Only Cloud-Like Foliage Tree That
Looks Like a Volume of Smoke.
A Worth-While Addition to the Garden.

Drifting clouds of ethereal-like flowers that seem to float softly about graceful limbs of the tree. Unusual, breath-taking beauty provides just the right scent note of softness to your garden and home. Grows to a height of 10 to 12 feet. Superb as a specimen tree.

	Each	2 for

Kelly's Finest Flowering Trees-For Lawns

PAUL'S SCARLET HAWTHORN

Old-fashioned beauty. Our parents knew and loved the Scarlet Hawthorn. And no wonder. The gracefully spreading branches provide a symphony of color with their broad, green leaves and brilliant rosy red flowers in large, double clusters that literally cover the flowering shrub or small tree. You get a double beauty award in the scarlet fruit later in the season. Ideal for the small yard. **4-5 ft., \$3.50 each, postpaid.**

Paul's Scarlet Hawthorn

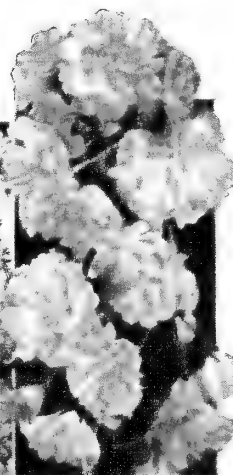

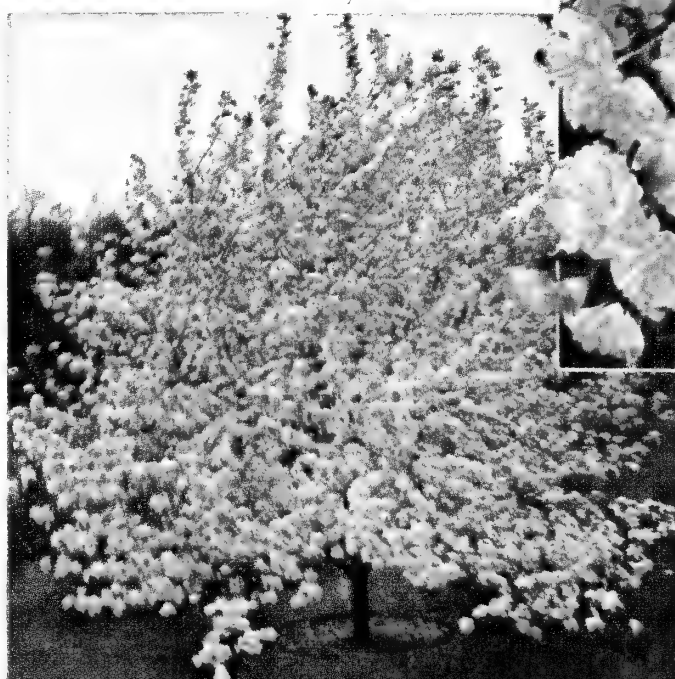

KWANZAN FLOWERING CHERRY

A Picture of Loveliness

Spectacular Flowering Cherries of Washington Tidal Basin, this one superb variety is always the most impressive. Trees bloom a year or two after transplanting. Grows 20-30 feet tall. Double, bright rose-pink flowers completely clothe the branches in early spring. **4-5 ft., \$4.50; 3-4 ft., \$3.50, postpaid.**

Kwanzan Cherry

RIVERS' PURPLE-LEAVED BEECH

One of the most colorful and beautiful of all trees and a mature specimen is one of the most valuable of all sorts. It is easily grown and long-lived. Leaves come out a deep maroon in the spring, turn gradually to a dark maroon-purple in summer, and in fall a rich purple-brown. Shapely in growth, rich in color, it will add that final touch of elegance to your lawn. Be sure to plant this variety as it is known to man to be one of the finest and best trees. **2-3 ft. grafted trees, \$3.50 each, postpaid.**

Purple-Leaved Beech

CUT LEAF WEeping BIRCH

Graceful, weeping branches, finely cut foliage and shimmering white bark, make this one of the most beautiful trees. Although not particular as to soil, the Cut Leaf Weeping Birch prefers a moist location and a sunny spot. Grows to 35 feet in height. **5-6 ft., \$4.50, not postpaid; 4-5 ft., \$3.50, postpaid.**

BECHTEL'S DOUBLE FLOWERING CRAB

Huge, double, light pink flowers hide the branches with rare beauty in the spring. Ideal for smaller lawn. Formal type; broad symmetrical, pyramidal style. Distinct lobed leaves. **3-4 ft., \$2.75; 2-3 ft., \$2.00, postpaid.**

Bechtel's Double Flowering Crab

REDBUD (Judas Tree)

Very Large Leaves—Graceful and Semi-Weeping

Live pink flowers cover every twig and branch, producing a breath-taking display early in the spring. Makes a very graceful 20-ft. tree. Large, healthy, heart-shaped leaves add a tropical cast to the landscape picture. A beautiful specimen even in the smallest yard. **3-4 ft., \$2.00, postpaid.**

RED JAPANESE MAPLE

**The Loveliest of All
Small Growing Trees**

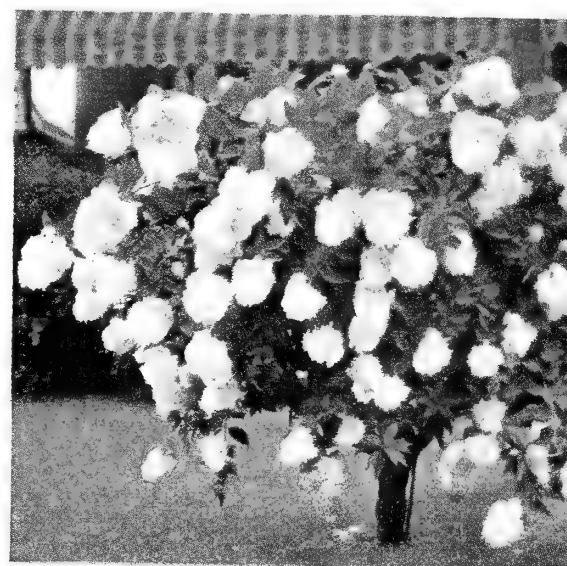

Grows no taller than 8 to 10 feet. Leaves a startling crimson all summer. Makes an excellent specimen for side yard or in formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled. **1-1½ ft., \$4.95, postpaid.**

1957 Our 77th Year

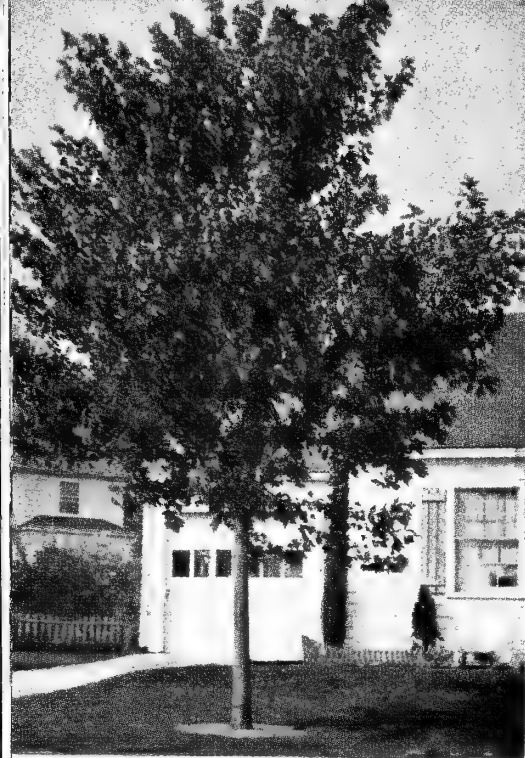

WHITE CLUMP BIRCH

In naturalization or in a lawn specimen, this lovely, multiple-stemmed tree is most effective. The white bark of its 3 or more trunks adds great charm to the landscape picture. Growth is gracefully upright, with horizontal branches. Reaches a height of 35 ft. **3-4 ft., \$3.50, postpaid.**

TREE HYDRANGEA

Large, pyramidal trusses of pure snow-white blossoms appear in early August. As fall approaches, they change to a luminous pink. At this stage they may be cut for all winter, dry bouquets. Blossoms measure a foot long and 6 to 8 inches wide. A low growing tree, standing not more than 4 to 6 feet in height. **3-4 ft., \$3.50; 2-3 ft., \$2.95, postpaid.**

Silver Maple

SILVER MAPLE

*A Picturesque Tree That
Is Extremely Hardy*

Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height from 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making.

8-10 ft.	\$4.25
6- 8 ft.	3.25
5- 6 ft.	2.75
4- 5 ft.	2.25

*Garden Splendor
In Fine Trees*

Stately PIN OAK

For an artistic, attractive shade tree, it is one of the fastest growing of the Oak family. The foliage is rich green, deeply cut, glossy copper in late fall. Generally disease and insect free. At maturity stands 30 to 40 ft. Grows in a symmetrical pyramidal form.

5-6 ft., \$6.00 each.

LOMBARDY POPLAR

Good for Wind Screens

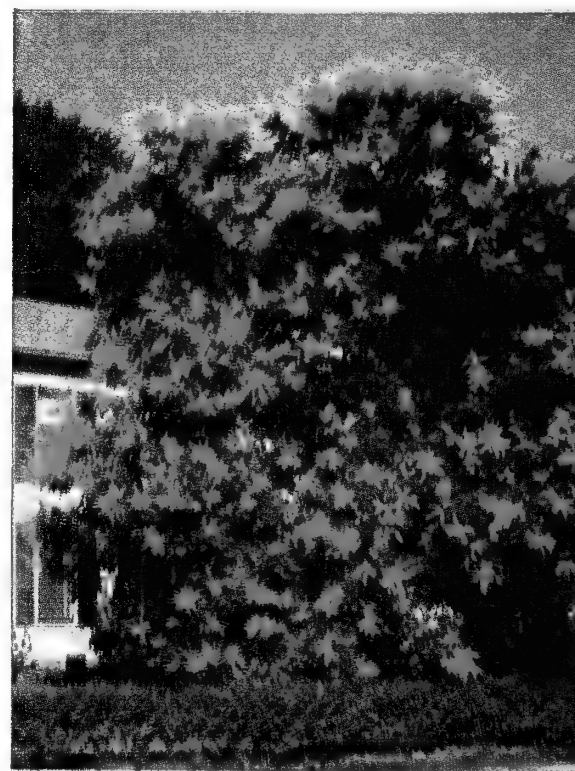

Tall, fast growing, spire-like tree. Adapted to wide range of soils. Everybody knows the striking appearance of this tall, narrow-growing tree, like a church spire. Ideal for screening, wind-breaks and backgrounds. When used for these purposes, plant 5 to 6 feet apart.

	Each	10	100

*Kelly's Famous
Garden Beautiful*

HOPA CRAB →

The lovely rosy pink, fragrant blossoms are exquisite—a jewel of the garden—no other tree equals the profusion of bloom. From early spring until freezing weather this tree will be a delight to the eye and nose. It is hard to imagine anything more beautiful. The foliage is dark green with red cast. Flowers are followed by the small red rosy Apples that bejewel the tree during the summer, and the small Apples can be used for jellies. The tree is half round in shape, growing to a spread of 15 feet. **5-6 ft., \$2.75; 2 for \$5.25. 4-5 ft. trees, \$2.25 each; 2 for \$4.25.**

GOLDEN RAIN TREE

(Koelreuteria paniculata)

This is one of the best medium sized flowering trees in cultivation. In midsummer the whole tree is a cascade of golden bloom. Golden yellow flowers are borne in long chains—a breath-taking sight when they stir in the breeze. Use as a specimen lawn tree, which will delight you and your neighbors. Suitable also for planting against walls, corners—any place a flattering floral display is desired. Attains a height of 30 feet. **3-4 ft., \$3.00 each; 2 for \$5.75. 2-3 ft., each \$2.00; 2 for \$4.75.**

Hopa Crab

Kelly's Famous NORWAY MAPLE →

*Best All Around
Shade Tree*

Recognized as the finest shade tree for generations. Rich indeed is the city whose inhabitants plant Norway Maple as a permanent street tree.

Norway Maple

Foliage Dense — Rich in Color

Its dense leaves are a rich green color, and hold on the tree longer in the fall than most Maples, without much change in color.

Good for Specimen Plantings

A good tree for street or lawn specimen plantings, where good form and shade are needed. Reaches a height of 30-50 ft. Is resistant to storm, very clean in habit, and the leaves will withstand smoke, soot and attacks from insects.

8-10 ft.	Each

LARGE TYPE EXHIBITION CHRYSANTHEMUMS

Hardy Garden Perennials That Bloom Profusely Every Fall Season

Few flowers have the versatility of color that is common to the Chrysanthemum. One of the most popular flowers used by florists for bouquets and floral arrangements can be grown right in your own garden. These varieties, grown for use by one of the world's largest and most scientific Chrysanthemum growers, are all perfectly hardy and will begin blooming in your garden in early September and lasting until frost. The varieties were carefully selected for their beautiful colors, complete hardiness, and the time of blooming to insure your complete satisfaction. These beautiful flowers grow to a height of 18-24 inches, and are excellent for cutting purposes. They bloom profusely in the late summer and fall, and add a world of color to landscape plantings.

FLAMBOYANT. Reddish bronze, double. Strong grower.

GARDENIA. Double white; strong grower; abundance of flowers.

NORTHERN QUEEN. One of the best pinks for cut-flower purposes.

BRONZE QUEEN. Bronze.

SPELLBINDER. Canary-yellow.

LIPSTICK. The leading red.

Paint Your Garden!

with Kelly's HARDY PERENNIAL

6 of the Best Colors in Our Famous Cushion Mums

After the second year planting, these HARDY MUMS develop into sizes as large as a bushel basket, and each plant is literally covered with many hundreds of lovely flowers which you can buy from us in the six colors listed below.

1. BRONZE GLORYMUM. A lovely deep Rembrandt color.

Planted alone it develops into a large, round flower cushion—plump with hundreds of blossoms. One of the prettiest of the Cushion Mums, yet it requires little care.

2. PINK GLORYMUM. Like a large pink satin cushion.

The oldest of the Cushion Mums—still one of the best. A large plant by early fall, completely covered with beautiful pink blossoms that often cover all the leaves. A lovely sight in early September 'til late fall.

3. RED GLORYMUM. Dazzling scarlet brushed with a lavish hand.

Each blossom a fiery red color that blends into an over-all mass of brilliant red color. Stunning if used with other Cushion Mums. This plant has been known to have over 500 blossoms and some buds on the bush five months after being established. Blooms from September until freezing weather.

A Sensational Creation of the Flower Kingdom

One of the most popular garden favorites. Plant these beautiful flowers 2 to 2½ feet apart in well drained soil. They do well in full sun or partial shade. Our Cushion Mums are hardy and will bloom from August up to the time of severe frosts.

4. WHITE GLORYMUM. Lovely alone—complements all other colors.

Pure white blossoms that blossom freely. Lovely white that enhances all the other colors without losing its own beauty.

5. YELLOW GLORYMUM. The end of the rainbow—the pot of gold!

A brilliant golden yellow that takes an early lead in the "Mum" show. A little care will reward you with a thousand blossoms or more at one time. We love this yellow Mum. You will, too.

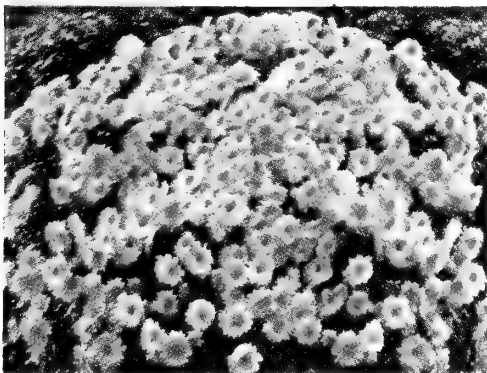

6. VIOLET GLORYMUM. A new color for beauty.

A brilliant violet color, which you will want to add to your collection of Mums. Covered with beautiful blossoms, which you will enjoy.

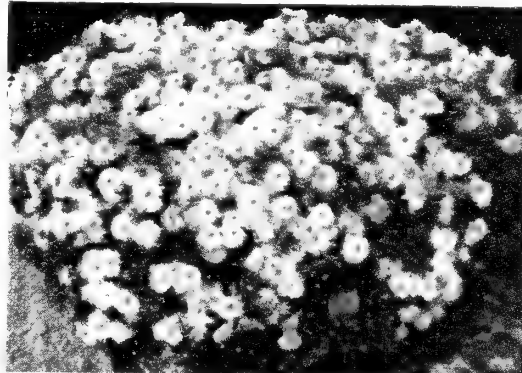

All are prolific bloomers that make a spectacular picture in any garden. Starting small in the spring, they quickly develop into large, bushy plants.

LILIES - 3 Best Garden Varieties

Kelly's Easy To Grow
Gorgeous Colored Lilies

REGAL LILY

Gorgeous, large white flowers. Centers are flushed with yellow, shading to a warm brown on the ribs. The almost transparent petals have a delightful pearly tint. One of the hardiest Lilies in cultivation. The Regal Lily, when rightly established, will produce from 15 to 20 flowers each year on stems growing to a height of 4 to 5 feet. **2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.**

A TRUE PINK LILY

Truly beautiful, delicate but perfectly hardy. Heads of 10 or more delicately fragrant, rose-pink blooms are daintily dotted with crimson, supported on 3- to 4-foot stems. Excellent in the garden—for bouquets and corsages. Blooms in August. **2 for \$1.00; 4 for \$1.75; 8 for \$3.45, postpaid.**

NEW FIRE KING LILY

The most beautiful true fiery red Lily we have ever seen. A tremendous number of large out-facing blooms flecked with black dots open over a period of three weeks during June and July. Fire King in bloom is beautiful and showy even over a long distance. Plants with somewhat flattened wiry stems grow 3 to 4 feet. An outstanding 60-80 blooms per stem is not uncommon on established plants. This strain was discovered by a Dutch gardener who noticed the new Lily in his bulb beds and named it the Fire King to describe the unusual color. **\$1.25 each; 2 for \$2.25, postpaid.**

GARDENIA

For indoor and outdoor culture. Spectacular flowers that resemble a wax-like rose.

The thick glossy foliage surrounding the creamy white blossoms of the familiar Gardenia make this dwarf shrub a prize addition to your terrace or sun room. Grow it in pots and enjoy its exotic beauty all year, inside or out. Unequaled for its rich perfume. Very strong plants. **2-yr. flowering size, \$1.25 each; 2 for \$2.25, postpaid.**

Beautify your indoors with these exotic house plants—Gardenia and American Lemon Plant are two special Kelly offerings for 1957.

Kelly's Mammoth Hardy Garden

PEONIES

A Staple Perennial You Can Depend On

Once planted they will develop into large plants, blossoming each year with hundreds of blossoms.

The gorgeous Peony is one of the outstanding flowers for the garden, and rivals the Rose in popularity. Being extremely hardy, it grows and thrives in any part of the country, requiring the least care, and is free from pests and diseases. There are very few perennials as permanent and dependable as the Peony. The following prices are for strong, 3- to 5-eye plants, which will give you pleasing results.

\$1.15 each; 3 for \$2.95; 6 for \$5.40, postpaid.

FELIX CROUSSE. The best red for gardens. Bright ruby-red color.

EDULIS SUPERBA. Dark rose-pink.

VENUS. Beautiful soft pink.

FLORIBUNDA ROSES

They Bloom from June 'til Frost

Fashion

FASHION

Coral overlaid with gold for a look of opulence and luxury that makes this our choice for the greatest Floribunda ever created. Each Hybrid-

Tea-shaped bloom is composed of 20 to 25 petals borne singly and in clusters the entire season. Green, green foliage makes a perfect background outdoors as well as in arrangements. **\$2.00 each; 3 for \$5.25; 12 for \$21.00, postpaid.**

Goldilocks

GOLDILOCKS

Each a perfect bloom as though made of rich, yellow country butter. A new-fashioned flower that becomes "the" accent when mixed with other Floribundas or left free standing. Plants are well balanced, dense with deep green foliage and golden yellow buds that bloom for a long time with fresh new yellow buds constantly appearing. **\$1.75 each; 3 for \$4.65; 12 for \$18.60, postpaid.**

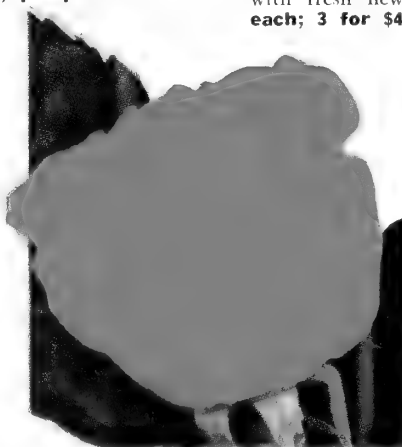

RED PINOCCHIO

(Plant Pat. No. 812)

Color is a rich dancing carmine, which deepens and acquires a velvety cast as it fully opens. The 3½-inch flowers are borne in large, long-lasting, unfading clusters with individual blooms scattered between the mass flowering. Buds are attractive deep satiny carmine on the outside of the petals and a bright carmine on the inside. **\$1.75 each; 3 for \$4.65; 12 for \$18.60, postpaid.**

Red Pinocchio

Jiminy Cricket

JIMINY CRICKET

A profusion of tangerine-red buds, opening to coral-orange or vermilion blooms that finish a lovely pink-coral shade. Handsome, glossy bronze leaves and upright growth make it a wise choice for hedges and massing. Continuous bloom makes it a natural for single or group display. The only Floribunda to win the 1955 All-America Selections award. **\$2.00 each; 3 for \$5.25; 12 for \$21.00, postpaid.**

1 Each of All For Only

Circus

Outstanding All-America Floribunda Award Winner for 1956

This unique addition to the All-America Selections is a multi-colored variety and is the first of this particular type to be selected for an award. The ever-changing colors of Circus vary from rich yellow and red in the bud to orange-buff, flushed with apple-blossom-pink, and usually end with a gay flourish of red as the flower opens fully. Circus adds charm in other ways besides color. The bud is beautifully formed, and the many-petaled, high-centered flower opens very gracefully. The plant is full and well rounded, low to medium in height, and perfectly suited for a variety of garden uses. The large, glossy foliage gives the plant a well tailored appearance even between blooming periods. The gay, bright colors, changing and shading with infinite variety, suggest the excitement and activity of the "Big Top."

(Plant Patent No. 1382).

Circus

VOGUE

A rich, ripe cherry-coral shade that holds its unique color from bud to full, gorgeous flower. Blooms continuously in medium and large showy clusters. Slow opening buds become perfect high-centered blooms 3-4 inches broad. **\$2.00 each; 3 for \$5.25; 12 for \$21.00, postpaid.**

Vogue

Pinocchio

PINOCCHIO

(Plant Pat. No. 484)

Great clusters of gracefully pointed buds of rich salmon, flushed with gold at the base, open up to long-lasting blooms like miniature Hybrid Teas. As the flowers open, they change to soft lucid pink and shade into deeper pink at the edges. The cool pink masses are refreshing in mass planting and edgings for paths, drives, beds and borders. **Each \$1.75; 3 for \$4.65; 12 for \$18.60, postpaid.**

HEAVY FLOWERING *Climbing Roses*

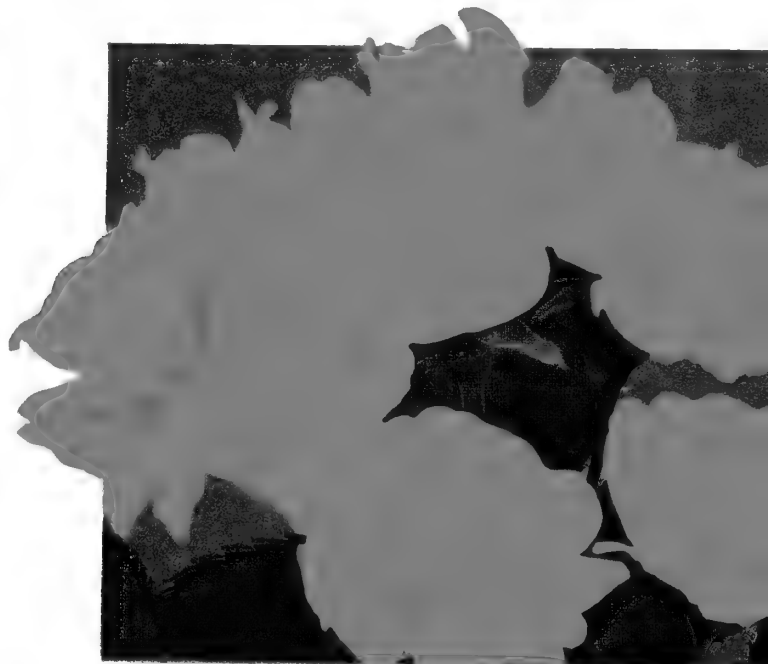

GOLD RUSH. At last, a hardy everblooming yellow climbing Rose. Flowers are large, double, high-centered and a rich golden yellow. Produced from late spring until frost. The foliage is glossy ivy-green. Hardy and a vigorous grower. **\$1.50 each; 3 for \$3.90, postpaid.**

WHITE DAWN. Hardy, everblooming. Flowers are double, snow-white, fragrant and produced constantly from late spring to frost. Just as hardy and dependable as its parent New Dawn. **\$1.50 each; 3 for \$3.90, postpaid.**

BLAZE. (Red.) (Plant Pat. No. 10.) Grows in true Pillar form. Blooms early, followed by repeat blooms throughout the summer and fall seasons. Plants hardy, bright green foliage and sturdy canes. Color is intermediate scarlet and does not fade readily. **\$1.35 each; 3 for \$3.85, postpaid.**

NEW DAWN. (Pink.) Perfect Hybrid Tea-like blooms all season of apple-blossom-pink, and a delicate appealing old rose fragrance. Superb for use in bouquets and arrangements. Fine long stems. **\$1.35 each; 3 for \$3.85; 6 for \$7.25, postpaid.**

CLIMBING PEACE. (Plant Pat. No. 932.) This new climbing sport has the same fine foliage and strong stems and perfectly formed flowers as the ever popular Hybrid Tea. Ovoid bud is deep yellow with the edges of the petals picoteed cerise. Slowly opens to a glorious 5-inch bloom with shades of canary-yellow, pale gold, cream, pearly white and apple blossom. **\$2.50 each; 3 for \$6.60, postpaid.**

Choice PATENTED Hybrid Everblooming ROSES

PRESIDENT EISENHOWER. (Pat. 1217.) Rich, unfading rose-red color; 35-40 petals; very large and brilliant. **\$2.25 each; 3 or more, \$2.00 each, postpaid.**

The New 1956 LOVE SONG

(Pat. No. 1360).

First American-bred offspring of famous "Peace." Large Rose of radiant salmon-pink with brilliant yellow on a third of the blossom. Resembles Peace in form and size. **\$2.50 each; 3 or more, \$2.20 each, postpaid.**

TREE ROSES

Nothing more elegant—but at ease in informal or formal settings. These Tree Roses are the aristocrat of the garden. Breathing loveliness growing on straight, slender stems from 3 to 4 feet high.

Blossoms and foliage are a dream of color. Unusual and beautiful—an eye-catching display used singly or in formal groups of two or more. You have a choice of clear, stained-window-red, delicate frosty pink, bold sunny yellow, or variegated two-tone. **\$5.50 each; 2 for \$10.00, postpaid.**

All-America Patented Rose Selections

PEACE. (Plant Patent No. 591.) All-America Selection. The bud is rich golden yellow with pink markings. Changes color as it opens to ivory, then white with pink blush on petal edge. Plants produce many flowers at once. **\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.**

NEW YORKER (Plant Patent No. 823.) The best red Rose of all time.

Perfect buds, opening to 6-inch blooms. Scarlet with dark overtones of a rich velvety hue. Hardy, free blooming all season. **\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.**

MOJAVE. (Plant Pat. No. 1176.) Lovely apricot-orange color. Long, slender buds. The large, double flowers have about 25 petals, pleasantly fragrant. Nearly every bloom borne singly on a long stem. **\$2.75 each; 3 for \$7.20; 12 for \$28.80, postpaid.**

CHARLOTTE ARMSTRONG. (Plant Pat. No. 455.) Blood-red buds and magnificent cerise flowers on long stems throughout the season. A double Rose that opens slowly and lasts well in the garden. **\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.**

HELEN TRAUBEL. (Plant Pat. No. 1028.) 4- to 5-inch blooms of light sparkling pink or luminous apricot. Alive with blooms all season. Flowers are good in any weather. **\$2.50 each; 3 for \$6.60; 12 for \$26.40, postpaid.**

LOWELL THOMAS. (Plant Pat. No. 595.) Clear canary-yellow with a long, graceful bud. Opens to a large flower with 25 or so petals. Has good green foliage, strong stems. A wonderful yellow Rose. **\$2.25 each; 3 for \$6.00; 12 for \$24.00, postpaid.**

ROSA MULTIFLORA THE LIVING FENCE

**Controls Erosion • Provides Wild Life Refuge
Adds Beauty to the Landscape**

Facts About the Rosa Multiflora and Its Growth

1. Can be planted 1 foot apart. Its thorns will keep children and animals of all kinds in bounds.
2. Produces dense growth—white blossoms in June—red berries in late summer and fall.
3. Extremely hardy—does well in most all soils.
4. Extensive pruning during the growing season required to keep the hedge small.
5. Grows 8 feet or more in height and 6 to 8 feet in width if not kept trimmed.
6. The red berries will attract birds of all kinds, including pheasants and grouse.
7. Grows 2 to 3 feet in one season.
8. Ideal as a ground cover on steep banks and slopes.
9. Plant just as you would any other shrub.
10. Requires no special care. Not subject to any serious disease or insect attacks.

For a good thick hedge, the plants should be trimmed back to 6 or 8 inches to promote thick growth. You can, therefore, see there is no advantage in planting larger size plants than we offer.

CREEPING GROUND COVER PLANTS - They creep and climb

VINCA MINOR

(Periwinkle)

A trailing evergreen plant, used for carpeting the ground under shrubs or trees or on graves, or where it is too shady for grass or other plants. One of the best ground covers. Glossy foliage stays green summer and winter. Has a profusion of bright blue flowers in early summer. Excellent for edging and borders. Add to its beauty by interplanting of Daffodils or other bulbs which do well planted in this manner. Plants should be set four inches apart.

1957-Our 77th Year

Hall's Honeysuckle Vine

White and gold trumpet flowers are very fragrant and remain during the entire summer. Attracts bees and humming birds. The foliage remains green in winter with some protection. Excellent cover for steep banks. Will climb on trellis or tree. Fruit is yellow; very showy in winter against green leaves. Often grows to a length of 10 to 15 feet. Plant about 3 ft. apart in staggered rows for ground cover. **75c each; 3 for \$2.10; 10 for \$6.50; 25 for \$14.95; 50 for \$24.95; 100 for \$45.00, postpaid.**

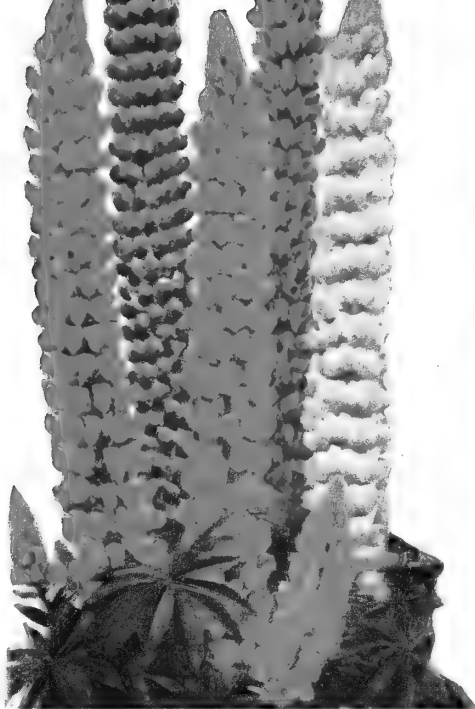

PACHYSANDRA TERMINALIS

(Japanese Spurge)

EVERGREEN GROUND COVER

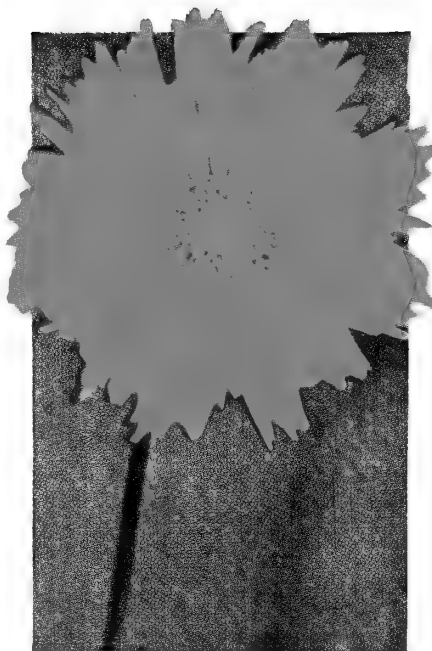

The most popular of evergreen ground covers. It spreads rapidly, giving a finished look to an underplanting. Since it thrives in the shade, it is especially useful under dense shade trees where grass will not survive. Also good for steep bank where mowing is difficult. Very useful as a combined ground cover and root protector when planted under Rhododendrons, Azaleas, and Laurels. Pachysandra puts the finishing touch to a foundation planting. Plant four or more to one square foot. **50 for \$4.75; 100 for \$8.75; 250 for \$19.75; 500 for \$34.95; 1000 for \$65.00, postpaid.**

RUSSELL LUPINE

From England comes this long-stemmed, clustered, Pea-shaped flower in a variety of plain and intermixed colors. Through the patience of the famous hybridizer, Mr. Russell, who spent 25 years of inbreeding Lupines from the world over, this horticultural triumph is available to home gardeners at reasonable prices. Mixed colors. **60c each; 3 for \$1.65, postpaid.**

COREOPSIS

Valuable for its profusion of showy yellow blooms all summer long. Fine for cutting and mixed bouquets. Has long stems. Hardy and easy to grow. Reaches 2 to 3 feet in height. **60c each; 3 for \$1.65, postpaid.**

HARDY GARDEN CARNATIONS

This gay and gaudy Carnation is worth while in the garden, a decoration in the house, or a boutonniere. All colors are lively and should be set about 12 inches apart in the garden, with light mulch over the winter. We recommend group plantings of 12 or more for good results. Colors: Pink, White, Red, Yellow. **60c each; 3 for \$1.65, postpaid.**

PERENNIALS

The Best Hardy Flowering Plants

SHASTA DAISY, ALASKA

(White). A national favorite developed from the common Daisy into a new flower head measuring about 2 to 3 inches across. These Daisies are pretty, very hardy and permanent garden adornment. **60c each; 3 for \$1.65, postpaid.**

CREeping PHLOX

(Phlox Subulata)

Height 6 inches. Greets the early spring with brilliant mass coloring. A creeping or dwarf variety covered with a sheet of bloom in April and May, lasting several weeks. Fine for rock garden or on banks. Colors: Pink, White, Rose or Crimson. **60c each; 3 for \$1.65, postpaid.**

GAILLARDIA

The New Burgundy

Here is a worth-while satiny maroon-orange flower with deeper color on rim and yellow center. This variety blooms all season and gives a lot of satisfaction in every garden. Height about 18-24 in. **60c each; 3 for \$1.65, postpaid.**

AQUILEGIA

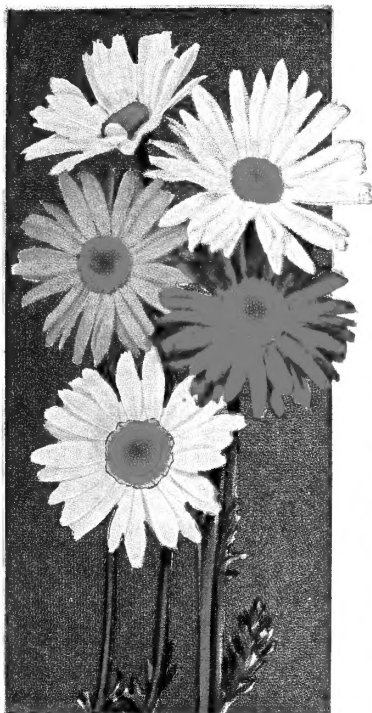

(Columbine)

McKana's Hybrids

A graceful plant in many colors. The long, pointed spurs are characteristic of this unusual "Wonder of the Garden." Mixed colors. **60c each; 3 for \$1.65, postpaid.**

PAINTED DAISIES
(Pyrethrum)

Robinson's Hybrids

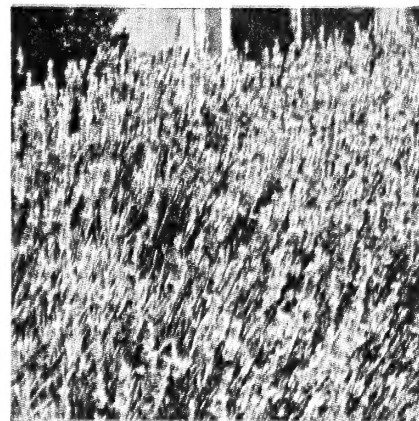

Colorful. Daisy-like flowers that are free blooming—excellent when planted 3 or more in a group. Grows 24 inches high. Colors range from rose to light pink. 60c each; 3 for \$1.65, postpaid.

DOUBLE HOLLYHOCK
Grows 4-6 feet high. Not to be confused with the old-fashioned single varieties, this "newer" double flowering creation blooms very double in a large range of colors. Excellent for accent, to hide walls or unsightly buildings. Colors: Pink, Red, White, Yellow. 60c each; 3 for \$1.65, postpaid.

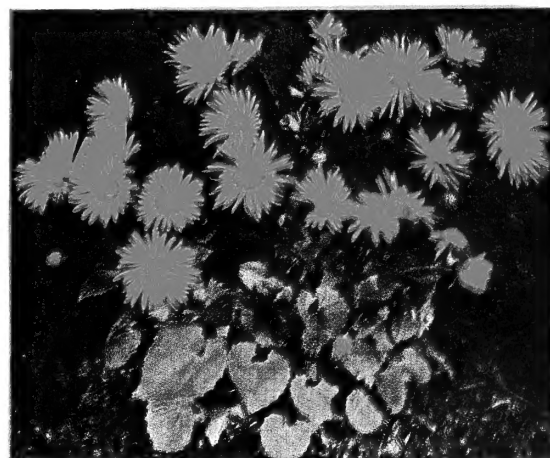

LAVANDULA
Sweet Scented
English Lavender

Flowers from early July till frost. Airy and fragrant when cut, and when dried are used for making sachets or for placing in linen drawers, etc. The fragrant, silvery green foliage is very ornamental and grows about 15 inches high, while the violet-blue flowering spikes rise another 15 inches. 60c each; 3 for \$1.65, postpaid.

DORONICUM CAUCASICUM

Beautiful in the garden. The Daisy-like yellow flowers with orange centers nearly completely cover this low growing ball-shaped plant. 60c each; 3 for \$1.65, postpaid.

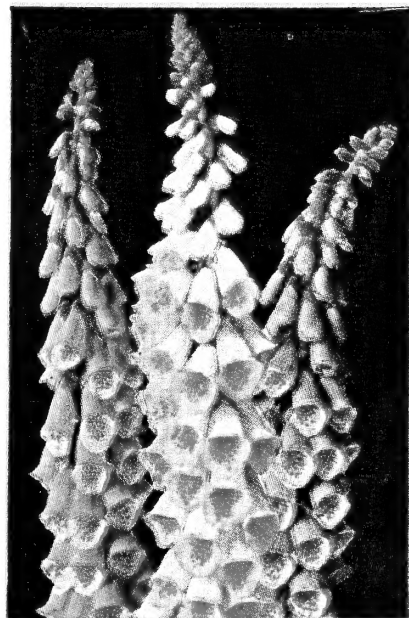

Perennials Live On For Many Years
They Are The Nation's Favorite Flowers

TRITOMA

(Red Hot Poker)

A unique plant that grows erect on stiff stems, 20 inches high. Has 10 to 12 dazzling red-orange flower spikes, but not harsh in their display, reaching their peak in September. The flower head is completely covered with tiny trumpet-shaped flowerettes. 60c each; 3 for \$1.65, postpaid.

FOXGLOVES

Digitalis Excelsior

Beautiful wedding bell flowers in a wide range of solid and two-tone colors. Flower heads are 2 to 3 feet long, thickly clustered with large, bell-shaped blossoms. Blooms practically all summer. A mass planting in beds or border will produce charming effect.

Mixed Colors. 60c each; 3 for \$1.65, postpaid.

DELPHINIUMS

Pacific Strain

Grow 3 feet and taller. Exquisite in charm and grace—they can be used for accent—as the stately spires stand erect on the stems.

Galahad. White.

Summer Skies. Light blue.

King Arthur. Purple with white eye.

Blue Bird. Deep blue with white eye.

Magnificent Tuberous Rooted BEGONIAS

Most Beautiful in Partial Sun and Shady Places

These selected imported **Belgium Begonias** are supplied in a range of many colors. Camellia-like blooms from early summer till frost; they are not only a fine outdoor plant, but do equally as well indoors.

This thrilling development of the lovely Begonia is unusual in color and shape. The Camellia type varieties look similar to a Rose—are low growing with large waxy flowers. They grow from bulbs.

We offer them in eight colors: Crimson, Scarlet, Pink, Orange,

White, Yellow, Copper, Salmon. Recommended for northern exposures.

1¼ to 1½ inch, 6 for \$1.00; 12 for \$1.85, postpaid.

GLADIOLUS

Our Gladiolus bulbs are guaranteed to bloom and please you in every way. We offer a large size bulb that will measure $1\frac{1}{4}$ to $1\frac{1}{2}$ inches across. Plant 4 to 6 inches deep and 3 to 6 inches apart in a row. Be sure to give them plenty of water before and during the blooming season. Great care is taken in selecting the varieties and we list only the better finer kinds.

General Eisenhower

Gold

Masters of loveliness. You will never match such unusual beauty in Gladiolus. Five or six of a variety planted together will bring a world of garden satisfaction seldom to be compared.

GENERAL EISENHOWER. This new variety has huge flowers, often 7 inches across, a rich begonia-rose. Strong, tall stems. Big and beautiful.

GOLD. The best of all the yellows.

ELIZABETH THE QUEEN. New. Flowers are large, exquisite mauve, and beautifully ruffled with darker lines in the throat. Opens 7 to 8 blooms at a time.

NEW EUROPE. Bright orange-red that mixes well in bouquets, or is beautiful alone.

SPIC & SPAN. Ruffled deep pink which will win on number and length of flower heads. Disease resistant.

ABU HASSAN. This deep, dark blue adds richness to all the others. Florists welcome it.

MOTHER FISHER. Ruffled white.

DIEPPE. Scarlet.

CRYSTAL ORCHID. Ruffled cream.

FRIENDSHIP. Pure pink.

Royal Stewart

Prize-Winning Patented Exhibition GLADIOLUS

APPLEBLOSSOM. Of utmost delicacy of coloring, being snowy white with a touch of cream in the throat and an exquisite flush of cool rose-pink at the edges of the petals. A vigorous grower, up to 5-foot spikes.

CARIBBEAN. Opens 9 to 11 florets at one time with rare blue-violet petals with a rich, deep violet throat and small cream spear. It is the first distinctly ruffled blue-violet Gladiolus.

MAYTIME. An ideal flower for cutting or exhibition. Has gracefully ruffled, deep pure pink florets with contrasting white throats. A robust grower, opening 8 to 10 florets on spikes $5\frac{1}{2}$ feet tall.

ROYAL STEWART. The lightly ruffled florets are five inches in diameter. They are a clear light red and the long flower heads frequently carry up to 12 flowers open at one time. Growth vigorous and healthy, total height of plants running about 5 feet.

EVERGREEN SHRUBS

From Holland

AZALEA MOLLIS

Their flowers are lovely and add so much to any planting. We have imported these from Holland. Large blossoms, blooming in early spring. Fine bushy plants, about a foot tall. They prefer part shade, and do best in a soil mixed half and half with peat moss. The roots are very close to the surface, so a peat moss mulch should be kept around the plants after setting out. Grows to 3 ft. Keep well watered. We offer them in the following colors:

Red, Orange, Yellow, \$2.50 each; 2 for \$4.75, postpaid.

RHODODENDRONS

For Supreme Landscaping Effects

You'll be surprised at the growing speed of these Young Aristocrat Rhododendrons. They are small—they soon develop into fine, bushy, evergreen shrubs. You save money: you buy as low as 75c each in quantity. Quickly they grow into fine, bushy specimens, often valued at \$5.00 to \$10.00 each.

RHODODENDRON CATAWBIENSE

Grows 3-5 ft. tall. Leaves smaller than Maximum. Color of flower varies in shades of pink and rose. Grows in full sun but does best in partial or full shade.

	3	10	100
10-12 in.	\$3.00	\$8.75	\$75.00

RHODODENDRON MAXIMUM

Grows 5-6 ft. tall. Very hardy for full or partial shade. Color of flower varies from pink to white. Large clusters in June and early July.

	3	10	100
10-12 in.	\$3.00	\$8.75	\$75.00

KALMIA (Mountain Laurel)

Grows 6-8 ft. tall. Flowers vary from deep rose to pure white. Blooms from May to late June.

	3	10	100
10-12 in.	\$3.00	\$8.75	\$75.00

(See Collection at Lower Left)

ILEX CRENATA CONVEXA

A small grower, growing four feet high and three feet across. The leaves are glossy and grow so thick that you cannot see the twigs. It is very hardy and will grow either in alkaline or acid soil, in full sun or shade. For a hedge, plant 1½ feet apart. An evergreen that holds its leaves all winter. This blends well with other evergreens or relieves the bareness of deciduous shrubs when they have no leaves.
